Subject Index

- Abscess, cerebral
 - neonatal *Citrobacter* meningitis: pathogenesis of cerebral abscess formation (Foreman et al), 655
- Abscess, gas-containing
 - gas within intracranial abscess cavities: an indication for surgical excision (Young and Frazer), 35
- Abscess excision
 - gas within intracranial abscess cavities: an indication for surgical excision (Young and Frazer), 35
- Acetazolamide
 - ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135
 - serum carbamazepine levels are increased by acetazolamide (McBride), 393A
- Acetylcholine
 - abnormal neuromuscular transmission in an infantile myasthenic syndrome (Albers et al), 28
 - chemically activated channels in muscle and spinal cord (Jackson), S52
- Achondroplasia
 - neurological evaluations in achondroplasia (Butler et al), 386A
- Acid phosphatase, fluoride-resistant
 - depletion of fluoride-resistant acid phosphatase in dorsal root ganglion neurons after neurectomy but not after rhizotomy (Tenser and Wall), 148A
- Acidosis, cerebral
 - the induction and reversibility of cerebral acidosis in thiamine deficiency (Hakim), 673
- Acquired immunodeficiency syndrome
 - central nervous system toxoplasmosis complicating acquired immune deficiency syndrome (Navia et al), 151A
 - neurological complications in children with acquired immune deficiency syndrome (Belman et al), 414A
 - progressive encephalopathy in children with acquired immune deficiency syndrome: clinical and neuropathological findings (Epstein et al), 414A
- Acrylamides
 - axonal caliber alterations following short-term and long-term acrylamide administration (Gold et al), 147A
- Adenosine triphosphatase
 - glial and neuronal $\text{Na}^+\text{-K}^+$ pump in epilepsy (Grisar), S128
 - in an in vitro model of exercising muscle, inosine monophosphate production is proportional to the force generated (Brooke et al), 144A
 - ($\text{Na}^+ + \text{K}^+$)-ATPase: function, structure, and conformations (Stahl), S121
- Adrenal cortex hormones
 - comparison of the initial response of childhood dermatopolymyositis to daily versus alternate-day corticosteroid administration: a retrospective study (Cook et al), 400A
- Adrenergic beta receptor blockers
 - peripheral beta-adrenergic blockade treatment of parkinsonian tremor (Foster et al), 505
- Adrenoleukodystrophy
 - adrenoleukodystrophy: survey of 303 cases: biochemistry, diagnosis, and therapy (Moser et al), NEUROLOGICAL PROGRESS, 628
 - inhibition of very-long-chain fatty acid synthesis and accumulation in adrenoleukodystrophy fibroblasts by oleic acid (Rizzo et al), 413
- Age factors
 - age-related differences in brain electrical activity of healthy subjects (Duffy et al), 430
- Aging
 - effect of aging on the accuracy of visually guided saccadic eye movement (Warabi et al), 449
- Alexander's law
 - Alexander's law: its behavior and origin in the human vestibulo-ocular reflex (Robinson et al), 714
- Alper's disease
 - Alper's disease—a distinct clinicopathological entity (Alcalá and Kotagal), 382A
- Alzheimer dementia
 - brain electrical activity in patients with presenile and senile dementia of the Alzheimer type (Duffy et al), 439
 - motor signs are infrequent in dementia of the Alzheimer type (Koller et al), NOTE, 514
- Alzheimer's disease
 - amyloid angiopathy in Alzheimer's disease (Ranalli and Bergeron), 119A
 - clinical characteristics of early-onset and late-onset Alzheimer's disease (Huff et al), 119A
 - contribution of catecholaminergic systems to neurites in plaques of aged primates (Kitt et al), 118A
 - cortical abnormalities in Alzheimer's disease (Foster et al), 649
 - Creutzfeldt-Jakob disease of long duration: clinicopathological characteristics, transmissibility, and differential diagnosis (Brown et al), 295

- Alzheimer's disease cell culture
 - hypersensitivity to x rays in cultured cells from patients with Parkinson's disease and Alzheimer's disease (Robbins et al), 135A
- Amantadine
 - amantadine in essential tremor (Koller), LETTER; reply (Manyam), LETTER, 621
- Amino acids, branched-chain
 - early-onset leukodystrophy in branched-chain ketoaciduria

July issue, pp 1-156; August issue, pp 157-264; September issue, pp 265-414; October issue, pp 415-518; Supplement, pp S1-S158; November issue, pp 519-626; December issue, pp 627-724.

- Amino acids, branched-chain** (*continued*)
evaluated by magnetic resonance imaging (Allen and Gebarski), 408A
- Ammonia**
hyperammonemia in birth asphyxia and respiratory distress syndrome (Ehrlich and Cooper), 405A
- Amnesia**
catecholamines and amnesia: the need for psychometric verification (McEntee and Mair), LETTER, 516; reply (Martin et al), LETTER, 516
- Amygdaloid body**
amygdala dysfunction in autism (Merjanian et al), 389A
- Amyloid**
cerebral amyloid angiopathy causing intracranial hemorrhage (Kalyan-Raman and Kalyan-Raman), 321
- Amyloid angiopathy**
amyloid angiopathy in Alzheimer's disease (Ranalli and Bergeron), 119A
- Amyotrophic lateral sclerosis**
autoantibodies in amyotrophic lateral sclerosis (Apatoff et al), 109A
double-blind crossover trials with acute intravenous thyrotropin-releasing hormone infusion in patients with amyotrophic lateral sclerosis: negative studies (Mitsumoto et al), 109A
inefficient increased oxygen consumption during submaximal exercise in amyotrophic lateral sclerosis (Sanguet et al), 110A
nystagmus in motor neuron disease: clinicopathological study of two cases (Kushner et al), 71
placebo controlled computerized dynametric measurements of bulbar and somatic muscle strength increase in patients with amyotrophic lateral sclerosis following intravenous infusion of 10 mg/kg thyrotropin-releasing hormone (Gracco et al), 110A
placebo controlled quantitative measurements of neuromuscular function following intravenous infusion of 10 mg/kg thyrotropin-releasing hormone in 16 male patients with amyotrophic lateral sclerosis (Sufit et al), 110A
subcutaneous thyrotropin-releasing hormone seems ready for wider trials in treating lower motor neuron-produced weakness and spasticity (Engel et al), 109A
trials of thyrotropin-releasing hormone treatment of patients with amyotrophic lateral sclerosis (Saida et al), 109A
- Amyotrophic lateral sclerosis, familial**
familial occurrence of amyotrophic lateral sclerosis, parkinsonism, and dementia (Schmitt et al), 642
- Angiomatosis**
regional cerebral blood flow characteristics of the Sturge-Weber syndrome (Riela et al), 399A
- Anoxia**
effect of hypoxia-ischemia on benzodiazepine receptors in developing rat cerebral cortex (Powell et al), 397A
effect of hypoxic-ischemic encephalopathy on subsequent development of seizures in the developing brain (Holmes and Weber), 396A
the effects of graded hypoxia on cerebral phosphorus metabolites and intracellular pH in newborn lambs (Younkin et al), 383A
flunarizine limits striatal dopamine release induced by hypoxia-ischemia (Silverstein et al), 397A
hypoxic-ischemic spinal cord injury following severe perinatal asphyxia. I: clinical and neuropathological examinations (Clancy et al), 404A
hypoxic relaxation of isolated cerebral arteries (Ashwal et al), 399A
- Anoxia, endoneurial**
altered endoneurial oxygen tension topography in edematous peripheral nerves (Low et al), 147A
- Antibodies, monoclonal**
monoclonal antibody analysis of mononuclear cells in myopathies. II: phenotypes of autoimmune cells in polymyositis and inclusion body myositis (Engel and Arahata), 209
monoclonal antibody analysis of mononuclear cells in myopathies. I: quantitation of subsets according to diagnosis and sites of accumulation and demonstration and counts of muscle fibers invaded by T cells (Arahata and Engel), 193
neurofilament breakdown products in degenerating rat and human peripheral nerves (Trojanowski et al), 349
regional localization of a glioma-associated antigen defined by monoclonal antibody 8106 (Blasberg et al), 133A
- Anticoagulants**
the risk of intracerebral hemorrhage during oral anticoagulant treatment: a population study (Wintzen et al), 553
- Anticonvulsants**
effect of progesterone on brain excitability: a developmental study (Holmes), 396A
limitation of high-frequency repetitive firing of cultured mouse neurons: an in vitro assay of anticonvulsant drug action (McLean and Macdonald), 121A
withdrawal of sedative anticonvulsant drugs from mentally retarded persons. I. development of guidelines (Coulter), 393A
- Antidepressive agents**
short-term effects of antidepressants on hippocampal seizures (Hicks et al), 122A
- Antigens, immune response**
a three-color multiplex labeling analysis of the expression of Leu 1, Leu 2a, and OKT5 antigens on peripheral blood lymphocytes of normal subjects and patients with multiple sclerosis (Kastrukoff et al), 138A
- Antitrypsin phenotypes**
 α -1 antitrypsin phenotypes in Guillain-Barré syndrome, chronic inflammatory demyelinating polyneuropathy, and multiple sclerosis (McCombe et al), 141A
- Aphasia, Broca**
nuclear magnetic resonance and positron emission tomographical findings in a crossed dextral aphasic patient (Black et al), 155A
- Aphasia, progressive**
positron emission tomographic studies in slowly progressive aphasia without generalized dementia (Chawluk et al), 136A
- Apnea**
outcome in neonates with apneic seizures (Dumas et al), LETTER, 622
- Apraxia, manual**
manual apraxia in learning-disabled children (Deuel et al), 388A
- Arnold-Chiari deformity**
a new index of brainstem traction: the auditory brainstem response fused wave (Foley et al), 390A
- Arterial occlusive diseases**
effect of vasodilating drugs on intracortical and extracortical vascular resistance following middle cerebral artery occlusion in cats (Date and Hossmann), 330
moyamoya disease and other causes of stroke in Down's syndrome (Lenn and Pearson), 398A
- Arteriosclerosis**
the role of plasma lipids in carotid bifurcation atherosclerosis (Ford et al), 154A

- Arteriovenous malformations**
the diagnosis of brainstem arteriovenous malformations by magnetic resonance imaging (Walker et al), 409A
- Aspergillosis, central nervous system**
aspergillosis of the central nervous system: clinical and pathological analysis of 17 patients (Walsh et al), 153A
- Asphyxia**
hypoxic-ischemic spinal cord injury following severe perinatal asphyxia. I: clinical and neuropathological examinations (Clancy et al), 404A
- Asphyxia, neonatal**
brain single photon emission computed tomography in asphyxiated newborns (Curless et al), 381A
perinatal cerebral infarction (Ment), 559
value of ultrasound for identification of acute hemorrhage necrosis of thalamus and basal ganglia in an asphyxiated term infant (Kreusser et al), 361
- Aspirin**
failure of aspirin to prevent in vivo platelet activation in acute stroke (Shah et al), 154A
- Ataxia, inherited**
canine inherited ataxia: neurotransmitter receptors in the cerebellum (Troncoso et al), 135A
- Ataxia, sensory**
observations on sensory ataxia (Campbell), 151A
- Atresia, intestinal**
central pontine myelinolysis in a 6-month-old infant with rapidly corrected hyponatremia (Chercover and Norman), LETTER, 261
- Atrophy, brain**
evoked potentials and nuclear magnetic resonance scanning in patients with olivopontocerebellar atrophy (Aisen et al), 137A
- Atrophy, cerebellar**
cerebellar atrophy following phenytoin intoxication (Lindvall and Nilsson), 258
- Atrophy, spinal**
the neuropathology of the Holmes-Adie syndrome (Selhorst et al), 138A
- Audiometry, evoked response**
multimodality evoked potentials in two patients with electrocerebral silence and prolonged somatic survival (Atkinson et al), 397A
- Auditory stimulation**
positron emission tomographic measurements of regional cerebral blood flow during auditory stimulation (Sidtis et al), 116A
- Autism**
amygdala dysfunction in autism (Merjanian et al), 389A
- Autoantibodies**
autoantibodies in amyotrophic lateral sclerosis (Apatoff et al), 109A
- Autoimmune diseases**
myasthenia gravis and myasthenic syndromes (Engel), NEUROLOGICAL PROGRESS, 519
- Autonomic nervous system diseases**
neurogenic orthostatic hypotension in an adolescent (Voorhies et al), 407A
respiratory dysrhythmia in Shy-Drager syndrome (Chokroverty and Manocha), 136A
- Axon degeneration**
axonal caliber alterations following short-term and long-term acrylamide administration (Gold et al), 147A
principles and pitfalls of nerve conduction studies (Kimura), NEUROLOGICAL PROGRESS, 415
- Axons**
decreased axon caliber and neurofilaments in hereditary motor and sensory neuropathy, type I (Nukada and Dyck), 238
infantile giant axonal neuropathy (Hodson and Ballinger), 407A
a new form of sea-blue histiocytosis associated with progressive anterior horn cell and axonal degeneration (Ashwal et al), 184
- Basal ganglia**
hemidystonia: a report of 21 patients and a review of the literature (Pettigrew and Jankovic), 125A
- Batrachotoxins**
drug-ionic channel interactions: single-channel measurements (Narahashi), S39
- Benzodiazepine receptors**
effect of hypoxia-ischemia on benzodiazepine receptors in developing rat cerebral cortex (Powell et al), 397A
reduced benzodiazepine receptor binding in cerebral cortical cell cultures exposed to clonazepam over the long term (Sher), 377A
- Benzodiazepines**
midazolam sedation for computed tomography in children: pharmacokinetics and pharmacodynamics (Weissman et al), 410A
- Bicuculline**
in vivo phosphorus nuclear magnetic resonance spectroscopy in status epilepticus (Petroff et al), 169
- Binswanger's disease**
cerebral white matter hypodensity in computed tomographical brain scan: an indication of Binswanger's disease? (Hurwitz et al), 155A
- Biogenic amines**
roles of biogenic amines and cyclic nucleotides in seizure mechanisms (Ferrendelli), S98
- Biotinidase**
a clinical summary of sixteen patients with biotinidase deficiency and a method for its rapid diagnosis (Wolf et al), 412A
preferential involvement of the central nervous system in biotinidase deficiency (Diamantopoulos et al), 385A
- Blindness**
amaurosis fugax as a result of ocular infarction in adolescents and young adults (Tippin et al), 114A
- Blindness, cortical**
cortical blindness in adults: etiology, diagnosis, and prognosis (Aldrich et al), 115A
- Blood-brain barrier**
free radical injury of brain capillary endothelial cell transport (Lo and Betz), 411A
verapamil, dexamethasone, aspirin, and α -difluoromethylornithine protect against blood-brain barrier breakdown by suppressing polyamine synthesis (Koenig et al), 156A
- Blood flow, brain**
cerebral physiological and metabolic effects of hyperventilation in the neonatal dog (Young and Yagel), 337
- Blood flow, cerebral**
the anatomy and geometry of anterior cerebral artery blood flow determinations (Tarby et al), 405A
cerebral blood flow and nuclear magnetic resonance studies in chronic multiple sclerosis (Eidelman et al), 141A
continuous-wave Doppler: normal values, reliability, and validity for nine single and seven combination measures (Ellison et al), 404A
perinatal cerebral infarction: animal studies of cerebral blood flow and metabolism (Ment et al), 382A
positron emission tomography in the newborn: effect of

- Blood flow, cerebral (*continued*)
 seizure on regional cerebral blood flow in an asphyxiated infant (Perlman et al), 403A
- Blood flow, nerve
 galactose neuropathy: impact of chronic endoneurial edema on nerve blood flow (Myers and Powell), 587
- Blood flow velocity
 assessing cerebral autoregulatory function and brain compliance in central nervous system diseases of childhood (Goitein et al), 398A
 ductal ligation and cerebrovascular responses to hypovolemia and reinfusion in the newborn beagle: relationship to intraventricular hemorrhage (Goddard-Finegold and Michael), 381A
- Blood flow velocity, cerebral
 the effect of eliminating fluctuating cerebral blood flow velocity in preterm infants with respiratory distress syndrome on the incidence and severity of intraventricular hemorrhage (Perlman et al), 380A
- Blood pressure alterations
 alteration of blood pressure and gastric tone with pharmacological stimulation of the nucleus tractus solitarius (Spencer and Talman), 124A
- Blood vessels, cerebral
 the neurobiology of vascular head pain (Moskowitz), NEUROLOGICAL PROGRESS, 157
- B lymphocytes
 diagnostic importance of immunological markers in lymphoma involving the central nervous system (Ezrin-Waters et al), 668
- Body weight
 Huntington's disease: body weight and basal metabolic indices (Shoulson et al), 126A
- Bone marrow transplantation
 metachromatic leukodystrophy: partial treatment through bone marrow transplantation (Philippart et al), 399A
 neurological complications of bone marrow transplantation in childhood (Wiznitzer et al), 569
- Books
Alzheimer's Disease and Related Disorders, Research and Management, edited by Kelly (brief review), 264
The Anterior Pituitary Gland, edited by Bhatnager (brief review), 626
The Assessment of Aphasia and Related Disorders, by Goodglass and Kaplan (Nass), 625
Astrocytes: Normal, Reactive, and Neoplastic, by Duffy (brief review), 264
Clinical Management of Seizures: A Guide for the Physician, Second Edition, edited by Solomon et al (brief review), 264
Dementia: A Clinical Approach, by Cummings and Benson (brief review), 264
Eating and Its Disorders (Association for Research in Nervous and Mental Disease, Vol 62), edited by Stunkard and Stellar (brief review), 518
Functional Radionuclide Imaging of the Brain (Seroni Symposia Publications, Vol 5), edited by Magistretti (brief review), 518
Hypertensive Intracerebral Hemorrhage, edited by Mizukami et al (brief review), 264
Introduction to Neurosurgery, Fourth Edition, by Jennett and Galbraith (brief review), 626
Multiple Sclerosis, edited by Hallpike et al (Scheinberg), 97
Multiple Sclerosis: A Guide for Patients, edited by Scheinberg (Plum), 625
Neurofilaments, edited by Marotta (brief review), 264

- Botulinum
 pharmacotherapy versus botulinum in the treatment of blepharospasm: a preliminary report (Savino et al), 125A
- Botulism, wound
 descending paralysis resulting from occult wound botulism (Rapoport and Watkins), 359
- Brain abscess
 gas within intracranial abscess cavities: an indication for surgical excision (Young and Frazer), 35
- Brain activity
 rapid labeling of functional brain activity with [^{14}C]octanoate (Rowley et al), 117A
- Brain damage
 color association in normal, language-impaired, and non-language-impaired brain-damaged children (Shalev et al), 388A
- Brain death
 total locked-in state resembling brain death in polyneuropathy (Kotsoris et al), 150A
- Brain diseases, degenerative
 chemical characterization of a prominent phosphorylmonoester resonance in animal, Huntington, and Alzheimer brain: phosphorus 31 and hydrogen 1 nuclear magnetic resonance analysis at 4.7 and 14.1 Tesla (Pettegrew et al), 136A
- Brain injuries, congenital
 differential effects of congenital right and left hemisphere injury on dichotic tests of specialized auditory function (Nass et al), 388A
- Brain injuries, perinatal
 early language development in children with cortical and subcortical perinatal injury (Janowsky and Nass), 387A
- Brain mapping
 cortical functional localization by electrical stimulation before surgical treatment of primary brain tumors (Morris et al), 131A
- Brain neoplasms
 cortical functional localization by electrical stimulation before surgical treatment of primary brain tumors (Morris et al), 131A
 in vivo measurement of brain tumor pH using [^{11}C]dimethylloxazolidinedione and positron emission tomography (Rottenberg et al), 132A

- measurement of brain/tumor capillary permeability using ^{82}Rb and positron emission tomography (Jarden et al), 131A
- quantitative measurements of transcapillary transport and vascular volume in human brain tumors (Groothuis et al), 131A
- Brain receptors**
- somatostatin receptors in monkey and human brain (Beal et al), 117A
- Brainstem**
- alternating ipsilateral hypertropia on lateral gaze in patients with lower brainstem disorders (Moster et al), 115A
- Brainstem traction**
- a new index of brainstem traction: the auditory brainstem response fused wave (Foley et al), 390A
- Calcinosis, brain**
- familial calcifications of the brain, iron storage, and porphyria: a new syndrome (Beall et al), 137A
- Calcium channel blockers**
- calcium antagonists are effective in prophylactic treatment of all types of vascular headache (Meyer et al), 113A
- calcium entry blocker therapy in acute cerebral ischemia (Grotta et al), 111A
- flunarizine limits striatal dopamine release induced by hypoxia-ischemia (Silverstein et al), 397A
- phenytoin interacts with calcium channels in brain membranes (Greenberg et al), 616
- verapamil, dexamethasone, aspirin, and α -difluoromethylornithine protect against blood-brain barrier breakdown by suppressing polyamine synthesis (Koenig et al), 156A
- Calmodulin**
- calmodulin systems in neuronal excitability: a molecular approach to epilepsy (DeLorenzo), S104
- Capillary permeability**
- measurement of brain/tumor capillary permeability using ^{82}Rb and positron emission tomography (Jarden et al), 131A
- quantitative measurements of transcapillary transport and vascular volume in human brain tumors (Groothuis et al), 131A
- Capillary permeability, brain**
- free radical injury of brain capillary endothelial cell transport (Lo and Betz), 411A
- Caprylates**
- cerebral glucose alterations after octanoate infusion (Trice et al), 412A
- rapid labeling of functional brain activity with $[1-^{14}\text{C}]$ -octanoate (Rowley et al), 117A
- Carbamazepine**
- behavioral, intellectual, and medical outcomes of children with partial onset seizures randomized to phenobarbital or carbamazepine (Mitchell and Chavez), 393A
- carbamazepine in children: clinical and laboratory adverse effects (Pellock et al), 392A
- carbamazepine-induced seizures (Johnsen et al), 392A
- effect of carbamazepine on Coumadin metabolism (Gibney), LETTER, 622; reply (Massey), LETTER, 623
- exercise intolerance, cramps, and sustained muscle activity responsive to carbamazepine (Alonso et al), 143A
- serum carbamazepine levels are increased by acetazolamide (McBride), 393A
- Carbamyl phosphate synthetase (ammonia)**
- clinical features of carbamyl phosphate synthetase-I deficiency in an adult (Call et al), 90
- Carbidopa**
- addition of carbidopa in patients with Parkinson's disease (Lieberman et al), 127A
- domperidone therapy in patients with Parkinson's disease with levodopa-carbidopa-related gastrointestinal complaints (Paulseth et al), 127A
- long-term levodopa-carbidopa-induced alterations in central dopamine metabolism and turnover in guinea pigs: clinical implications (Paulseth et al), 127A
- Carbonic anhydrase**
- ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135

- cerebral infarction in patients with mucinous cancer (Amico et al), 154A
- Carnitine**
- effect of valproic acid on ammonia and organic acid metabolism (Hardison et al), 378A
- heterogeneity of familial carnitine deficiency (Brand et al), 401A
- metabolic studies of carnitine in propionic aciduria (Kuczynski and Hoppel), 383A
- valproylcarnitine: a novel metabolite of valproic acid (Bohan et al), 394A
- Carotid artery dissection**
- supraclinoid carotid dissection (Ackerman et al), 153A
- Carotid artery ligation**
- fractional cerebrovascular resistance in normotensive and spontaneously hypertensive rats before and after bilateral common carotid artery ligation (Lee et al), 153A
- Carpal tunnel syndrome**
- single-digit pain and paresthesia: a symptom of early carpal tunnel syndrome (Fine et al), 150A
- Catecholaminergic systems**
- contribution of catecholaminergic systems to neurites in plaques of aged primates (Kitt et al), 118A
- Catecholamines**
- catecholamine replacement therapy in steely hair disease (Grover et al), 413A
- catecholamines and amnesia: the need for psychometric verification (McEntee and Mair), LETTER, 516; reply (Martin et al), LETTER, 516
- Cell body changes**
- hexacarbon neuropathy: cell body changes are early, dynamic, and specific (Serman), 343
- Cells, cultured**
- establishment and characterization of a new human glioblastoma-derived cell culture line (HMCN-1) (Geder et al), 130A
- hypersensitivity to x rays in cultured cells from patients with Parkinson's disease and Alzheimer's disease (Robbins et al), 135A
- Cerebellum**
- cerebellar atrophy following phenytoin intoxication (Lindvall and Nilsson), 258
- Cerebral amyloid angiopathies**
- cerebral amyloid angiopathy causing intracranial hemorrhage (Kalyan-Raman and Kalyan-Raman), 321
- Cerebral arteries**
- the anatomy and geometry of anterior cerebral artery blood flow determinations (Tarby et al), 405A
- effect of vasodilating drugs on intracortical and extracortical vascular resistance following middle cerebral artery occlusion in cats (Date and Hossmann), 330

- Cerebral artery diseases
hypoxic relaxation of isolated cerebral arteries (Ashwal et al), 399A
- Cerebral cortex
binding of α -1, α -2, and β -adrenergic receptor ligands to human epileptic cerebral cortex (Sherwin et al), 121A
cerebral cortical function in infants at risk for sudden infant death syndrome (Clancy and Spitzer), 396A
fine structure of cortical tubers in tuberous sclerosis: a Golgi study (Huttenlocher and Heydemann), 595
- Cerebral embolism
acute *Kingella kingae* endocarditis with recurrent cerebral emboli in a child with mitral prolapse (Lee and Dooling), 88
- Cerebral hemorrhage
antenatal phenobarbital for prevention of neonatal intraventricular hemorrhage (Shankaran et al), 381A
cerebral amyloid angiopathy causing intracranial hemorrhage (Kalyan-Raman and Kalyan-Raman), 321
ductal ligation and cerebrovascular responses to hypovolemia and reinfusion in the newborn beagle: relationship to intraventricular hemorrhage (Goddard-Finegold and Michael), 381A
the risk of intracerebral hemorrhage during oral anticoagulant treatment: a population study (Wintzen et al), 553
stable xenon computed tomography in the assessment of neonatal intraventricular hemorrhage and posthemorrhagic hydrocephalus (Manwaring et al), 411A
- Cerebral hemorrhage, neonatal
prognostic significance of neonatal intraventricular hemorrhage: follow-up results from discordant twins (Scott et al), 403A
- Cerebral infarction
acute cerebral infarction in humans: studies of cerebral circulation, metabolism, and acid-base status by positron emission tomography (Hakim et al), 154A
cerebral infarction in patients with mucinous cancer (Amico et al), 154A
- Cerebral infarction, perinatal
perinatal cerebral infarction (Ment), 559
perinatal cerebral infarction: animal studies of cerebral blood flow and metabolism (Ment et al), 382A
- Cerebral ischemia
calcium entry blocker therapy in acute cerebral ischemia (Grotta et al), 111A
cerebral blood flow and regional potassium distribution during focal ischemia of gerbil brain (Mies et al), 232
cerebral glucose metabolism during the recovery period after ischemia: its relationship to NAD/NADH redox state, blood flow, electrocorticogram, and histology (Greenberg et al), 155A
progressive cerebral ischemia antedates cerebrovascular symptoms by two years (Meyer et al), 314
PY-108-068 reduces postischemic deterioration after unilateral hemispheric stroke in gerbils (Sage et al), 111A
- Cerebral ischemia, focal
physiological responses to focal cerebral ischemia in humans (Powers et al), 546
- Cerebral ischemia, transient
coronary artery disease in patients with cerebrovascular disease: a prospective study (Rokey et al), 50
- Cerebral metabolism, neonatal
unique aspects of human newborn cerebral metabolism evaluated with phosphorus nuclear magnetic resonance spectroscopy (Younkin et al), 581
- Cerebral sclerosis, diffuse
inhibition of very-long-chain fatty acid synthesis and accumulation in adrenoleukodystrophy fibroblasts by oleic acid (Rizzo et al), 413A
- Cerebral silence
multimodality evoked potentials in two patients with electrocerebral silence and prolonged somatic survival (Atkinson et al), 397A
- Cerebral white matter
acquired perinatal leukoencephalopathy (Leviton and Gilles), NEUROLOGICAL PROGRESS, 1
- Cerebrosides
galactosylceramide lipidosis: novel presentation as a slowly progressive spinocerebellar degeneration (Thomas et al), 618

correlation of anti-peripheral myelin antibody kinetics with clinical course in Guillain-Barré syndrome (Koski et al), 112A
muscle fiber degeneration and necrosis in muscular dystrophy and other muscle diseases: cytochemical and immunocytochemical data (Cornelio and Dones), 694
- Computed tomography. See Tomography, x-ray computed
- Conjugate eye deviation
conjugate eye deviation after acute hemispheric stroke: delayed recovery after previous contralateral frontal lobe damage (Steiner and Melamed), 509
- Coronary artery disease
coronary artery disease in patients with cerebrovascular disease: a prospective study (Rokey et al), 50
- Corrections, 454
- Corpus callosum section
more intense focal seizure types after callosal section: the role of inhibition (Spencer et al), 686
postcommissurotomy mutism (Ross et al), 114A
- Corpus striatum
glial fibrillary acidic protein and histological studies in primate corpus striatum and substantia nigra after NMPTP treatment (Reyes et al), 129A
- Corpus striatum metabolism
striatal metabolism in Huntington's disease and in benign hereditary chorea (Martin et al), 126A
- Cortex abnormalities, metabolic
cortical abnormalities in Alzheimer's disease (Foster et al), 649
- Cortex atrophy
classic and generalized variants of Pick's disease: a clinicopathological, ultrastructural, and immunocytochemical comparative study (Munoz-Garcia and Ludwin), 467
- Creutzfeldt-Jakob disease. See Jakob-Creutzfeldt disease
- Cytomegaloviruses
multiple sclerosis immune complexes: an analysis of component antigens and antibodies (Coyle and Procyk-Dougherty), 660
- Cytoplasmic inclusions
classic and generalized variants of Pick's disease: a clinicopathological, ultrastructural, and immunocytochemical comparative study (Munoz-Garcia and Ludwin), 467
- Dactinomycin
chiasmatic/hypothalamic/thalamic gliomas in childhood: efficacy of treatment with chemotherapy alone (Packer et al), 402A
- Degeneration, macular
biochemical and ultrastructural evidence for mitochondrial dysfunction in spinocerebellar and macular degeneration (Holliday et al), 138A
- Degeneration, spinocerebellar
biochemical and ultrastructural evidence for mitochondrial dysfunction in spinocerebellar and macular degeneration (Holliday et al), 138A
- Degenerative disorders
abnormal glutamate dehydrogenase activity and activation in dominant and recessive olivopontocerebellar atrophy (Sorbi et al), 136A
- Dehydrogenases, glutamate
abnormal glutamate dehydrogenase activity and activation in dominant and recessive olivopontocerebellar atrophy (Sorbi et al), 136A
- Dementia
dementia and motor neuron disease: morphometric, biochemical, and Golgi studies (Horoupian et al), 305
- Dementia, familial
familial occurrence of amyotrophic lateral sclerosis, parkinsonism, and dementia (Schmitt et al), 642
- Dementia, presenile
classic and generalized variants of Pick's disease: a clinicopathological, ultrastructural, and immunocytochemical comparative study (Munoz-Garcia and Ludwin), 467
Creutzfeldt-Jakob disease of long duration: clinicopathological characteristics, transmissibility, and differential diagnosis (Brown et al), 295
- Demyelinating diseases
adrenoleukodystrophy: survey of 303 cases: biochemistry, diagnosis, and therapy (Moser et al), NEUROLOGICAL PROGRESS, 628
central pontine myelinolysis in a 6-month-old infant with rapidly corrected hyponatremia (Chercover and Norman), LETTER, 261
in vitro culture of isolated human adult oligodendrocytes on extracellular matrix (Lubetzki-Korn et al), 141A
principles and pitfalls of nerve conduction studies (Kimura), NEUROLOGICAL PROGRESS, 415
- Demyelination
myelin sheath responses to rapid changes in axonal caliber (Griffin et al), 147A
- Demyelination, serum-induced
the role of macrophages in serum-induced demyelination (Saida et al), 139A
- Dendrites
dendritic abnormalities of cortical pyramidal cells in rat pups born to hyperphenylalanemic mothers: a new animal model of "maternal phenylketonuria" (Lacey), 384A
experimental hyperphenylalaninemia and reinforcement schedule performance (Rosenberger and Ferraro), 384A
- Dermatomyositis
comparison of the initial response of childhood dermatomyositis to daily versus alternate-day corticosteroid administration: a retrospective study (Cook et al), 400A
- Diabetes mellitus
peripheral nerve function and metabolic control in diabetes mellitus (Troni et al), 178

- Diabetes mellitus, experimental
elevation of cerebrospinal fluid protein in diabetic mice (Griffin and Giffels), 146A
- Diabetes mellitus, insulin-dependent
increase in nerve conduction velocity in diabetic patients after one year of treatment with portable insulin infusion pumps (Ehle and Raskin), 146A
serial nerve conduction studies in juvenile diabetes mellitus (Swick et al), 401A
- Diabetic neuropathies
mechanisms of diabetic resistance to ischemic conduction block (Low et al), 146A
- Diaziquone
a phase 1-2 evaluation of intraarterial diaziquone for malignant tumors of the central nervous system (Greenberg et al), 133A
- 2,4-Dichlorophenoxyacetate
acute myotonia induced by 2,4-dichlorophenoxyacetate is mediated by polyamine synthesis (Koenig et al), 143A
- DNA, recombinant
regulation of expression of opioid peptide genes (Douglass et al), S22
- DNA polymorphisms
DNA linkage in myotonic muscular dystrophy (Ross et al), 145A
- DNA replication
impaired DNA repair replication in Alzheimer's disease cells (Robison et al), 119A
- Domperidone therapy
domperidone therapy in patients with Parkinson's disease with levodopa-carbidopa-related gastrointestinal complaints (Paulseth et al), 127A
- Dopamine
neuroleptics alter neurotensin/dopamine interactions: possible contributions to tardive dyskinesia (Uhl), 127A
- Dopamine metabolism
long-term levodopa-carbidopa-induced alterations in central dopamine metabolism and turnover in guinea pigs: clinical implications (Paulseth et al), 127A
- Down's syndrome
Down's syndrome and Alzheimer's disease (Suchowersky and Hayden), LETTER, 263; reply (Heyman et al), LETTER, 263
morphometric studies of neurons in the visual cortex of Down's syndrome brains (Wisniewski et al), 390A
moyamoya disease and other causes of stroke in Down's syndrome (Lenn and Pearson), 398A
- Doxorubicin
a murine B₁₆ melanoma model for meningeal carcinomatosis: investigation of systemic Adriamycin therapy (Siegal et al), 132A
- Drug toxicity
free phenytoin levels: correlation with drug toxicity (Shanghai et al), 120A
- Dyskinesia, drug-induced
behavioral hypersensitivity after combination neuroleptic therapy (Goetz et al), 126A
neuroleptics alter neurotensin/dopamine interactions: possible contributions to tardive dyskinesia (Uhl), 127A
tardive dyskinesia in Tourette's syndrome (Golden), 390A
- Dysrhythmia
respiratory dysrhythmia in Shy-Drager syndrome (Chokroverty and Manocha), 136A
- Dystonia
dystonia and lactic acidosis: new features of Rett's syndrome (Philippart and Brown), 387A
hemidystonia: a report of 21 patients and a review of the literature (Pettigrew and Jankovic), 125A
- Dystonia, familial
dystonia in 61-year-old identical twins: observations over 45 years (Eldridge et al), 356
- Dystonia, torsion
cholesterol and phospholipids in cultured skin fibroblasts from patients with dystonia (Maltese and De Vivo), 250
- Electroencephalographic abnormalities
electroencephalographic abnormalities in Tourette's syndrome (Barabas et al), LETTER, 93; reply (Krumholz et al), LETTER, 94
startle epilepsy: a clinical study (Sáenz-Lope et al), 78
- Electroencephalography
age-related differences in brain electrical activity of healthy subjects (Duffy et al), 430
brain electrical activity in patients with presenile and senile dementia of the Alzheimer type (Duffy et al), 439
characterization of seizures in neonates and young infants by time-synchronized electroencephalographic/polygraphic/video monitoring (Mizrahi and Kellaway), 383A
- Electromyography
abnormal neuromuscular transmission in an infantile myasthenic syndrome (Albers et al), 28
- Electro-oculography
effect of aging on the accuracy of visually guided saccadic eye movement (Warabi et al), 449
- Electroretinography
electroretinography in the evaluation of childhood myotonic dystrophy (Brenningstall et al), 406A
- Edema, endoneurial
galactose neuropathy: impact of chronic endoneurial edema on nerve blood flow (Myers and Powell), 587
- Editorial
Message from the editor (Plum), 627
- Encephalitis
encephalitis and aseptic meningitis, Olmsted County, Minnesota, 1950-1981: I. epidemiology (Beghi et al), 283
- Encephalitogenic basic proteins
cerebrospinal fluid myelin basic protein by ELISA (Myers et al), 142A
studies on complement-mediated demyelination: quantitation of myelin basic protein and myelin lipid turnover in mouse cerebellar explant cultures (Shin et al), 142A
- Encephalomyelitis
contamination of proteolipid protein with basic protein (Trotter and Clark), LETTER, 514
loss of suppressor T cells and recurrent encephalomyelitis associated with incontinentia pigmenti (Brunquell), 389A
- Encephalopathy
glucose utilization and focal symptoms in acute encephalitis/encephalopathy (Hiraiwa et al), 400A
mitochondrial myopathy, encephalopathy, lactic acidosis, and stroke-like episodes: a distinctive clinical syndrome (Pavakis et al), 481
neurological complications of bone marrow transplantation in childhood (Wiznitzer et al), 569
neurological complications in children with acquired immune deficiency syndrome (Belman et al), 414A
progressive encephalopathy in children with acquired immune deficiency syndrome: clinical and neuropathological findings (Epstein et al), 414A
- Encephalopathy, arteriosclerotic
cerebral white matter hypodensity in computed tomography

- graphical brain scan: an indication of Binswanger's disease? (Hurwitz et al), 155A
- Encephalopathy, early acquired
dystonia and lactic acidosis: new features of Rett's syndrome (Philippart and Brown), 387A
- Encephalopathy, paraneoplastic
isolated branchial myoclonus secondary to paraneoplastic encephalopathy (Wooten and Bennett), 133A
- Encephalopathy, subcortical
late-onset subcortical encephalopathy: computed tomographic, nuclear magnetic resonance, and clinical correlations (Kinkel et al), 137A
- Endocarditis, bacterial
acute *Kingella kingae* endocarditis with recurrent cerebral emboli in a child with mitral prolapse (Lee and Dooling), 88
- Endometriosis, sciatic
sciatic endometriosis: a treatable cause of neuropathy (Roos), 149A
- Endorphins
regulation of expression of opioid peptide genes (Douglass et al), S22
- Endotoxemia
acquired perinatal leukoencephalopathy (Leviton and Gilles), NEUROLOGICAL PROGRESS, 1
- Energy metabolism
unique aspects of human newborn cerebral metabolism evaluated with phosphorus nuclear magnetic resonance spectroscopy (Younkin et al), 581
- Enkephalins
analgesic efficacy of intrathecal D-Ala²-D-Leu⁵ enkephalin in cancer patients with chronic pain (Moulin et al), 124A
changes in dynorphin and enkephalin immunoreactivity in the spinal cord following experimental spinal injury (Faden et al), 124A
- Epidemiologic methods
neuroepidemiology (Kurtzke), NEUROLOGICAL PROGRESS, 265

encephalitis and aseptic meningitis, Olmsted County, Minnesota, 1950-1981: I. epidemiology (Beghi et al), 283
epidemiology of parkinsonism: incidence, classification, and mortality (Rajput et al), 278
neuroepidemiology (Kurtzke), NEUROLOGICAL PROGRESS, 265
- Epilepsy
calmodulin systems in neuronal excitability: a molecular approach to epilepsy (DeLorenzo), S104
chemically activated channels in muscle and spinal cord (Jackson), S52
clinical and laboratory features of phenytoin hypersensitivity in 18 patients (Olanoff et al), 121A
drug-ionic channel interactions: single-channel measurements (Narahashi), S39
GABA-related phenomena, models of nervous system function, and seizures (Roberts), S77
glial and neuronal Na⁺-K⁺ pump in epilepsy (Grisar), S128
ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135
looking for epilepsy genes (White), S12
neuropeptides: a role as endogenous mediators or modulators of epileptic phenomena (Bajorek et al), S31
regulation of expression of opioid peptide genes (Douglass et al), S22
- role of the γ -aminobutyric acid receptor-ionophore complex in seizure disorders (Olsen et al), S90
roles of biogenic amines and cyclic nucleotides in seizure mechanisms (Ferrendelli), S98
the search for epilepsies ideal for clinical and molecular genetic studies (Delgado-Escueta and Greenberg), S1
(Na⁺ + K⁺)-ATPase: function, structure, and conformations (Stahl), S121
the synaptic nature of the paroxysmal depolarizing shift in hippocampal neurons (Johnston and Brown), S65
- Epilepsy, inherited
isolating single genes of the inherited epilepsies (Noebels), S18
- Epilepsy, petit mal
 γ -hydroxybutyric acid in brain: subcellular studies (Snead), 378A
- Epilepsy, startle
startle epilepsy: a clinical study (Sáenz-Lope et al), 78
- Epilepsy, temporal lobe
kindling: an animal model of complex partial epilepsy (McNamara), S72
- Epilepsy epidemiology
epidemiology of epilepsy and brain injury in the People's Republic of China (Wang et al), 120A
epilepsy in an urban hospital population (Hauser et al), 122A
racial differences in the prevalence and clinical features of epilepsy: population survey of Copiah County, Mississippi (Haerer et al), 120A
- Epilepsy research
summation of the workshops and discussion: the new wave of research in the epilepsies (Delgado-Escueta), S145
- Epileptogenesis
brain methylation and epileptogenesis: the case of methionine sulfoximine (Sellinger et al), S115
mechanisms of epileptogenesis in cortical structures (Prince and Connors), S59
- Epistasis, genetic
familial occurrence of amyotrophic lateral sclerosis, parkinsonism, and dementia (Schmitt et al), 642
- Esterases
relevance of the nonspecific esterase reaction in the evaluation of childhood neuromuscular disease (Bodensteiner and Feeback), 406A
- Evoked potentials
central abnormalities in giant axonal neuropathy demonstrated by multimodality evoked response testing (Majnemer et al), 408A
neurological evaluations in achondroplasia (Butler et al), 386A
- Evoked potentials, abnormalities
evoked potential abnormalities in relatives of patients with multiple sclerosis (Nuwer et al), 141A
- Evoked potentials, auditory
evoked potentials and nuclear magnetic resonance scanning in patients with olivopontocerebellar atrophy (Aisen et al), 137A
- Evoked potentials, sensory
age-related differences in brain electrical activity of healthy subjects (Duffy et al), 430
- Evoked potentials, somatosensory
median nerve somatosensory evoked potentials in the diagnosis of cervical radiculopathy and cervical spondylosis (Navia and Rapoport), 150A
multimodality evoked potentials in two patients with elec-

- Evoked potentials, somatosensory (*continued*)
 trocerebral silence and prolonged somatic survival (Atkinson et al), 397A
- Evoked potentials, visual
 evolution of flash visual evoked potentials in preterm infants (Holt et al), 382A
- Eye abnormalities
 congenital hydrocephalus and eye abnormalities with severe developmental brain defects: Warburg's syndrome (Bordarier et al), 60
- Eye movements
 Alexander's law: its behavior and origin in the human vestibulo-ocular reflex (Robinson et al), 714
 changes in the human vestibulo-ocular reflex after loss of peripheral sensitivity (Baloh et al), 222
 conjugate eye deviation after acute hemispheric stroke: delayed recovery after previous contralateral frontal lobe damage (Steiner and Melamed), 509
 effect of aging on the accuracy of visually guided saccadic eye movement (Warabi et al), 449
 eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 115A
 midbrain paresis of horizontal gaze (Zackon and Sharpe), 495
- Eyelid diseases
 pharmacotherapy versus botulinum in the treatment of blepharospasm: a preliminary report (Savino et al), 125A
- Facial nerve
 threshold current for ephaptic transmission in hemifacial spasm (Moster et al), 149A
- Facial paralysis
 threshold current for ephaptic transmission in hemifacial spasm (Moster et al), 149A
- Fatty acids
 efficacy of therapeutic agents in experimental Reye's syndrome (Trauner), 411A
 inhibition of very-long-chain fatty acid synthesis and accumulation in adrenoleukodystrophy fibroblasts by oleic acid (Rizzo et al), 413A
- Fibroblasts
 dithiothreitol and DL-penicillamine decrease perinuclear vimentin filament aggregates in cultured giant axonal neuropathy fibroblasts (Tandan et al), 150A
 inhibition of very-long-chain fatty acid synthesis and accumulation in adrenoleukodystrophy fibroblasts by oleic acid (Rizzo et al), 413
 in vitro evaluation of beta-oxidation in human fibroblasts: implications for Reye's syndrome and other metabolic encephalopathies (Reichmann et al), 412A
 pyruvate carboxylase activity is not abnormal in fibroblasts of patients with Friedreich's ataxia (Dijkstra et al), LETTER, 262
- Fibronectins
 fibronectin in the cerebrospinal fluid (Koskiniemi et al), 386A
- Fluorescent antibody technic
 low T8 antigen density on lymphocytes in active multiple sclerosis (Reder et al), 242
- Folic acid
 folic acid-responsive rages, seizures, and homocystinuria (Murphy et al), 395A
- Friedreich's ataxia
 pyruvate carboxylase activity is not abnormal in fibroblasts of patients with Friedreich's ataxia (Dijkstra et al), LETTER, 262
- Frontal lobe disorders
 conjugate eye deviation after acute hemispheric stroke: delayed recovery after previous contralateral frontal lobe damage (Steiner and Melamed), 509
- GABA
 chemically activated channels in muscle and spinal cord (Jackson), S52
 GABA-related phenomena, models of nervous system function, and seizures (Roberts), S77
 γ -hydroxybutyric acid in brain: subcellular studies (Snead), 378A
 role of the γ -aminobutyric acid receptor-ionophore complex in seizure disorders (Olsen et al), S90
- Galactosidases
 an in vitro model for GM₁ gangliosidosis (Singer et al), 385A
- Ganglia, spinal
 depletion of fluoride-resistant acid phosphatase in dorsal root ganglion neurons after neurectomy but not after rhizotomy (Tenser and Wall), 148A
- Gangliogliomas
 gangliogliomas: a correlative clinical, pathological, radiological, and immunocytochemical study of 10 cases (Olivero and Kalyan-Raman), 132A
- Gangliosidosis, GM₁
 an in vitro model for GM₁ gangliosidosis (Singer et al), 385A
- Gangliosidosis, GM₂
 clinical and genetic variations in the syndrome of adult GM₂ gangliosidosis resulting from hexosaminidase A deficiency (Argov and Navon), 14
- Gaucher's disease
 the role of psychosine (glucosylsphingosine) in Gaucher's disease (Kaye et al), 384A
- Genes, GABA receptor
 the search for epilepsies ideal for clinical and molecular genetic studies (Delgado-Escueta and Greenberg), S1
- Genes, recessive
 congenital hydrocephalus and eye abnormalities with severe developmental brain defects: Warburg's syndrome (Bordarier et al), 60
 ultrastructural, neurological, and glycosaminoglycan abnormalities in Lowe's syndrome (Wisniewski et al), 40
- Genes, recessive sex-linked
 infantile axonal polyneuropathy with X-linked inheritance (Sladky and Brown), 402A
- Genetic markers
 genetic testing in Huntington's disease (Koller and Davenport), LETTER, 511; editorial comment (Martin), 512
- Genetics, medical
 looking for epilepsy genes (White), S12
- Germinoma, cerebral
 metastasizing cerebral germinoma (Peña and Smith), LETTER, 94
- Gilles de la Tourette's disease
 electroencephalographic abnormalities in Tourette's syndrome (Barabas et al), LETTER, 93; reply (Krumholz et al), LETTER, 94
 tardive dyskinesia in Tourette's syndrome (Golden), 390A
- Glioblastoma
 establishment and characterization of a new human glioblastoma-derived cell culture line (HMCN-1) (Geder et al), 130A
- Glioma
 chiasmatic/hypothalamic/thalamic gliomas in childhood:

- efficacy of treatment with chemotherapy alone (Packer et al), 402A
- gangliogliomas: a correlative clinical, pathological, radiological, and immunocytochemical study of 10 cases (Oliviero and Kalyan-Raman), 132A
- regional localization of a glioma-associated antigen defined by monoclonal antibody 8106 (Blasberg et al), 133A
- results of randomized chemotherapy trials for newly diagnosed medulloblastoma, malignant astrocytoma, and brainstem glioma from the children's cancer study group (Allen et al), 403A
- Glioma, pontine**
- eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 115A
- Globus pallidus**
- globus pallidus involvement in Huntington's disease (Montgomery), LETTER, 96; reply (Bugiani), LETTER, 96
- Glucose metabolism**
- reduced glucose utilization in the appropriate primary visual cortex with homonymous field defects (Wayner et al), 116A
- Glucose metabolism, brain**
- glucose metabolic rates of normal gray and white matter with a state-of-the-art positron emission tomographic scanner (Fishbein et al), 116A
- human brain glucose utilization and cognitive function in relation to age (Duara et al), 702

- cerebral glucose metabolism during the recovery period after ischemia: its relationship to NAD/NADH redox state, blood flow, electrocorticogram, and histology (Greenberg et al), 155A
- regional cerebral glucose metabolism in long-term survivors of acute lymphocytic leukemia: a comparison of central nervous system prophylaxis with and without whole-brain radiation therapy (Phillips et al), 402A
- Glucose metabolism, cerebrospinal fluid**
- cerebrospinal fluid glucose: turnover and metabolism (Hochwald et al), 117A
- Glucose metabolism, cortical**
- cortical abnormalities in Alzheimer's disease (Foster et al), 649
- Glycogen phosphorylase**
- elevated myophosphorylase-A in the King-Denborough syndrome (Hartlage et al), 406A
- Glycosaminoglycans**
- ultrastructural, neurological, and glycosaminoglycan abnormalities in Lowe's syndrome (Wisniewski et al), 40
- Golgi studies**
- dementia and motor neuron disease: morphometric, biochemical, and Golgi studies (Horoupian et al), 305
- Guillain-Barré syndrome**
- α -1 antitrypsin phenotypes in Guillain-Barré syndrome, chronic inflammatory demyelinating polyneuropathy, and multiple sclerosis (McCombe et al), 141A
- correlation of anti-peripheral myelin antibody kinetics with clinical course in Guillain-Barré syndrome (Koski et al), 112A
- the swine flu incident revisited (Asbury), LETTER, 513
- Western blot analysis of human peripheral nerve antigens recognized by Guillain-Barré antisera (Kasper), 149A
- Hemophilus influenzae***
- biochemical, electrophysiological, and behavioral sequelae of *Hemophilus influenzae* type B meningitis in the neonatal rat (Konkol et al), 413A
- Head trauma**
- cranial nuclear magnetic resonance imaging in head trauma (Gandy et al), 254
- Hearing tests**
- differential effects of congenital right and left hemisphere injury on dichotic tests of specialized auditory function (Nass et al), 388A
- Heart catheterization**
- neurological sequelae of cardiac catheterization (Weissman et al), 398A
- Hemagglutinin, viral**
- infection of neuronal cell cultures with reovirus mimics in vitro patterns of neurotropism (Dichter and Weiner), 603
- Hematoma, epidural**
- spontaneous resolution of epidural hematomas detected after the first day (Kempner et al), LETTER, 623
- Hemiplegia**
- hemiparesis profiles in acute stroke: the NINCDS Stroke Data Bank (Mohr et al), 156A
- startle epilepsy: a clinical study (Sáenz-Lope et al), 78
- Hemolytic-uremic syndrome**
- neurological involvement in the hemolytic-uremic syndrome (Sheth et al), 400A
- Herpesvirus**
- multiple sclerosis immune complexes: an analysis of component antigens and antibodies (Coyle and Procyk-Dougherty), 660
- Hexanes**
- hexacarbon neuropathy: cell body changes are early, dynamic, and specific (Stermann), 343
- Hexosaminidases**
- clinical and genetic variations in the syndrome of adult GM₂ gangliosidosis resulting from hexosaminidase A deficiency (Argov and Navon), 14
- Hippocampal dendrites**
- hippocampal dendritic abnormalities in a rat model of phenylketonuria (Lacey), 577
- Hippocampal seizures**
- short-term effects of antidepressants on hippocampal seizures (Hicks et al), 122A
- Hippocampus**
- aspartylglutamate and N-acetylaspartylglutamate excite pyramidal cells in rat hippocampal slice (Bernstein et al), 117A
- effects of extracellular electrical fields on excitability in the immature rat hippocampal slice (Abu-Assal et al), 380A
- the synaptic nature of the paroxysmal depolarizing shift in hippocampal neurons (Johnston and Brown), S65
- Holmes-Adie syndrome**
- the neuropathology of the Holmes-Adie syndrome (Selhorst et al), 138A
- Homocystinuria**
- folic acid-responsive rages, seizures, and homocystinuria (Murphy et al), 395A
- Huntington chorea**
- the cause of disability in Huntington's disease (Mayeux et al), 137A
- genetic testing in Huntington's disease (Koller and Davenport), LETTER, 511; editorial comment (Martin), 512
- globus pallidus involvement in Huntington's disease (Montgomery), LETTER, 96; reply (Bugiani), LETTER, 96
- Huntington's disease: body weight and basal metabolic indices (Shoulson et al), 126A
- striatal metabolism in Huntington's disease and in benign hereditary chorea (Martin et al), 126A

- Hydantoins**
neuropathological findings in an animal model of the hydantoin syndrome (Trice and Finnell), 396A
- Hydrocephalus**
primary diffuse meningeal gliomatosis in children (Whelan and Mastro), 391A
stable xenon computed tomography in the assessment of neonatal intraventricular hemorrhage and posthemorrhagic hydrocephalus (Manwaring et al), 411A
- Hydrocephalus, child**
outcome in children with prenatally diagnosed congenital hydrocephalus (Duncan et al), 411A
- Hydrocephalus, congenital**
congenital hydrocephalus and eye abnormalities with severe developmental brain defects: Warburg's syndrome (Bordarier et al), 60
- Hydrocephalus, pathogenesis, treatment**
pathogenesis and treatment of normal pressure hydrocephalus (Meyer et al), 135A
- Hyperekplexia**
startle disease, or hyperekplexia (Andermann and Andermann), LETTER, 367; reply (Masdeu and Sáenz-Lope), LETTER, 368
- Hyperventilation**
cerebral physiological and metabolic effects of hyperventilation in the neonatal dog (Young and Yagel), 337
- Hyponatremia**
central pontine myelinolysis in a 6-month-old infant with rapidly corrected hyponatremia (Chercover and Norman), LETTER, 261
- Hypoplasia, cerebellar**
familial cerebellar hypoplasia with upbeating nystagmus (Furman et al), 135A
- Hypotension, orthostatic**
neurogenic orthostatic hypotension in an adolescent (Voorhies et al), 407A
orthostatic hypotension, peripheral neuropathy, and depression: clinical and neurochemical evidence of a defect involving both peripheral and central noradrenergic systems (Rimar et al), 407A
- IgG synthesis**
quantitation of intrathecal IgG synthesis in multiple sclerosis: comparison between Tourtellotte's and Schuller's formulas, Link index, and cerebrospinal fluid IgG/albumin ratio (Bocci et al), 143A
- Imipramine**
the use of imipramine as an anticonvulsant for minor motor seizures (Hurst), 394A
- Immune complex**
multiple sclerosis immune complexes: an analysis of component antigens and antibodies (Coyle and Procyk-Dougherty), 660
- Immunosuppressive agents**
suppressor cell immunotherapy of experimental autoimmune myasthenia gravis (McIntosh and Drachman), 113A
- Impairment, intellectual**
the cause of disability in Huntington's disease (Mayeux et al), 137A
- Infant, low-birth-weight**
correlation of electrographic and anatomical findings in the very-low-birth-weight newborn (Scher and Barmada), 404A
- Infant, premature**
evolution of flash visual evoked potentials in preterm infants (Holt et al), 382A
- Infarction, ocular**
amaurosis fugax and ocular infarction in adolescents and young adults (Tippin et al), 114A
- Influenza B virus**
influenza B virus model of Reye's syndrome: effect of aspirin (Davis et al), 153A
- Inosine cyclic monophosphate**
in an in vitro model of exercising muscle, inosine monophosphate production is proportional to the force generated (Brooke et al), 144A
- Insulin**
insulin: growth factor for rat ventral spinal cord cultures (Moriwaka et al), 148A
- Intensive care unit, neonatal**
behavioral outcomes in children from the neonatal intensive care unit (Ellison et al), 389A
- Interferon type I**
human leukocyte interferon administration to patients with symptomatic and suspected rabies (Merigan et al), 82
- Intermediate filament proteins**
antibodies against the 200 Kd protein of neurofilaments in sera of normal people (Stefansson et al), 112A
- Intracranial pressure**
assessing cerebral autoregulatory function and brain compliance in central nervous system diseases of childhood (Goitein et al), 398A
- Ion channels**
chemically activated channels in muscle and spinal cord (Jackson), S52
drug-ionic channel interactions: single-channel measurements (Narahashi), S39
- Ionophores**
role of the γ -aminobutyric acid receptor-ionophore complex in seizure disorders (Olsen et al), S90
- Iron storage**
familial calcifications of the brain, iron storage, and porphyria: a new syndrome (Beall et al), 137A
- Iron uptake**
iron uptake by mammalian cortical neurons (Swaiman and Machen), 66
- Ischemia, brain**
effect of hypoxic-ischemic encephalopathy on subsequent development of seizures in the developing brain (Holmes and Weber), 396A
pharmacological blockade of excitatory amino acid neurotransmission attenuates the neuropathological damage of ischemia (Simon et al), 112A
proton buffering of the brain during complete ischemia (Kraig et al), 111A
radioactive tracers to label selectively ischemic damaged brain (Dienel and Pulsinelli), 115A
- Isotope studies**
the use of a stable isotope to study phenytoin metabolism in the newborn (Painter et al), 379A
- Jakob-Creutzfeldt syndrome**
antibodies to scrapie prion proteins recognize proteins in murine Creutzfeldt-Jakob disease-infected brain (Bendheim et al), 152A
Creutzfeldt-Jakob disease of long duration: clinicopathological characteristics, transmissibility, and differential diagnosis (Brown et al), 295
- Kidney calculi**
nephrolithiasis complicating the ketogenic diet in seizure disorders (Davis and Levinsohn), 395A

- Kindling**
calmodulin systems in neuronal excitability: a molecular approach to epilepsy (DeLorenzo), S104
effects of extracellular electrical fields on excitability in the immature rat hippocampal slice (Abu-Assal et al), 380A
kindling: an animal model of complex partial epilepsy (McNamara), S72
- King-Denborough syndrome**
elevated myophosphorylase-A in the King-Denborough syndrome (Hartlage et al), 406A
- Kinky hair syndrome**
catecholamine replacement therapy in steely hair disease (Grover et al), 413A
- Lactic acid**
dystonia and lactic acidosis: new features of Rett's syndrome (Philippart and Brown), 387A
- Language development**
early language development in children with cortical and subcortical perinatal injury (Janowsky and Nass), 387A
- Language disorders**
color association in normal, language-impaired, and non-language-impaired brain-damaged children (Shalev et al), 388A
- Learning disorders**
developmental specific learning disorders: natural history in the absence of specific therapeutic intervention (Weinberg et al), 388A
manual apraxia in learning-disabled children (Deuel et al), 388A
- Leigh disease**
variability of serial CT scans in Leigh disease (Koch et al), 410A
- Leukemia**
fibronectin in the cerebrospinal fluid (Koskiniemi et al), 386A
- Leukemia, central nervous system**
neurological complications of bone marrow transplantation in childhood (Wiznitzer et al), 569
- Leukemia, child**
nocturnal myoclonus—a sleep disturbance in children with leukemia (Kotagal et al), 392A
- Leukemia, lymphoblastic**
regional cerebral glucose metabolism in long-term survivors of acute lymphocytic leukemia: a comparison of central nervous system prophylaxis with and without whole-brain radiation therapy (Phillips et al), 402A
- Leukodystrophy**
early-onset leukodystrophy in branched-chain ketoaciduria evaluated by magnetic resonance imaging (Allen and Gebarski), 408A
nuclear magnetic resonance imaging of childhood leukodystrophies (Young et al), 408A
- Leukodystrophy, globoid cell**
cranial computed tomography and evoked potentials in globoid cell leukodystrophy (Darras et al), 385A
galactosylceramide lipidosis: novel presentation as a slowly progressive spinocerebellar degeneration (Thomas et al), 618
- Leukodystrophy, metachromatic**
metachromatic leukodystrophy: partial treatment through bone marrow transplantation (Philippart et al), 399A
- Leukoencephalopathy, acquired perinatal**
acquired perinatal leukoencephalopathy (Leviton and Giles), NEUROLOGICAL PROGRESS, 1
- Leukoencephalopathy, progressive multifocal**
papovavirus capsomer-like particles from progressive multifocal leukoencephalopathy brain (Tenser et al), 152A
a recent cluster of progressive multifocal leukoencephalopathy: clinical, radiographic, and epidemiological features (Krupp et al), 152A
- Levodopa**
domperidone therapy in patients with Parkinson's disease with levodopa-carbidopa-related gastrointestinal complaints (Paulseth et al), 127A
long-term levodopa-carbidopa-induced alterations in central dopamine metabolism and turnover in guinea pigs: clinical implications (Paulseth et al), 127A
- Levodopa withdrawal**
a neuroleptic malignant-like syndrome due to L-dopa withdrawal (Friedman et al), 126A
- Ligases**
clinical features of carbamyl phosphate synthetase-I deficiency in an adult (Call et al), 90
- Lipoproteins**
the role of plasma lipids in carotid bifurcation atherosclerosis (Ford et al), 154A
- Lomustine**
results of randomized chemotherapy trials for newly diagnosed medulloblastoma, malignant astrocytoma, and brainstem glioma from the children's cancer study group (Allen et al), 403A
- Lorazepam**
lorazepam treatment of childhood status epilepticus (Gilmore et al), 377A
- Lowe's syndrome**
ultrastructural, neurological, and glycosaminoglycan abnormalities in Lowe's syndrome (Wisniewski et al), 40
- Lupus**
neonatal lupus involving the central nervous system (Wallace et al), 399A
- Lymphocytes**
attempted treatment of multiple sclerosis by administration of lymphocytes from a normal identical twin (Goodman et al), 139A
a five-year clinical and immunological follow-up study of twins with multiple sclerosis (Greenstein et al), 140A
- Lymphocytic choriomeningitis virus**
lymphocytic choriomeningitis virus as a possible causative agent for multiple sclerosis (Chou et al), 140A
- Lymphoma, central nervous system**
diagnostic importance of immunological markers in lymphoma involving the central nervous system (Ezrin-Waters et al), 668
- Macrophages**
the role of macrophages in serum-induced demyelination (Saida et al), 139A
- Magnetic resonance imaging**
assessment of head trauma by computed tomography and nuclear magnetic resonance (Gandy et al), 114A
brain metastasis of systemic cancer is more frequently visualized with magnetic resonance imaging than with computed tomography (Rogers et al), 132A
cerebral blood flow and nuclear magnetic resonance studies in chronic multiple sclerosis (Eidelman et al), 141A
cervical spinal cord intramedullary tumor: demonstration by nuclear magnetic resonance imaging (Kilroy et al), 409A
chemical characterization of a prominent phosphorylmonoester resonance in animal, Huntington, and Alzheimer brain: phosphorus 31 and hydrogen 1 nuclear magnetic resonance analysis at 4.7 and 14.1 Tesla (Petegrew et al), 136A

Magnetic resonance imaging (*continued*)

- clinical versus magnetic resonance imaging: diagnosis of multiple sclerosis (Robertson et al), 140A
- cranial nuclear magnetic resonance imaging in head trauma (Gandy et al), 254
- the diagnosis of brainstem arteriovenous malformations by magnetic resonance imaging (Walker et al), 409A
- familial cerebellar hypoplasia with upbeating nystagmus (Furman et al), 135A
- in vivo phosphorus nuclear magnetic resonance spectroscopy in status epilepticus (Petroff et al), 169
- NMR imaging in infants and children with neurological disorders (Carr et al), 408A
- NMR imaging: posterior fossa neoplasms in children (Carr et al), 410A
- NMR scanning for evaluation of the tethered spinal cord (Walsh et al), 409A
- nuclear magnetic resonance imaging of childhood leukodystrophies (Young et al), 408A
- nuclear magnetic resonance imaging in evaluation of clinical stroke syndromes (DeWitt et al), 535
- ³¹P nuclear magnetic resonance study of cerebral high-energy phosphate metabolism during prolonged seizures in neonatal dogs (Young et al), 377A
- unique aspects of human newborn cerebral metabolism evaluated with phosphorus nuclear magnetic resonance spectroscopy (Younkin et al), 581
- Malignant hyperthermia
 - elevated myophosphorylase-A in the King-Denborough syndrome (Hartlage et al), 406A
- Marker, immunological
 - diagnostic importance of immunological markers in lymphoma involving the central nervous system (Ezrin-Waters et al), 668
- Medulloblastoma
 - chemotherapy controls systemic but not central nervous system metastases from medulloblastoma (Allen and Walker), 391A
- Melanoma, B₁₆
 - a murine B₁₆ melanoma model for meningeal carcinomatosis: investigation of systemic Adriamycin therapy (Siegal et al), 132A
- Membranes, brain
 - phenytoin interacts with calcium channels in brain membranes (Greenberg et al), 616
- Meningeal metastasis
 - childhood systemic sarcoma metastatic to meninges: a review of seventeen cases (Phillips et al), 391A
 - leptomeningeal dissemination of primary intracranial neoplasms of childhood: incidence and significance (Packer et al), 391A
- Meningeal neoplasms
 - primary diffuse meningeal gliomatosis in children (Whelan and Matri), 391A
- Meningioma
 - irradiation of intracranial anterior visual pathway meningiomas (Kupersmith et al), 131A
- Meningitis, aseptic
 - encephalitis and aseptic meningitis, Olmsted County, Minnesota, 1950-1981: I. epidemiology (Beghi et al), 283
- Meningitis, bacterial
 - seizures in childhood bacterial meningitis (Snyder), 395A
- Meningitis, bacterial neonatal
 - neonatal *Citrobacter* meningitis: pathogenesis of cerebral abscess formation (Foreman et al), 655
- Meningitis, hemophilus
 - biochemical, electrophysiological, and behavioral sequelae

of *Hemophilus influenzae* type B meningitis in the neonatal rat (Konkol et al), 413A

Mental retardation

- withdrawal of sedative anticonvulsant drugs from mentally retarded persons. I. development of guidelines (Coulter), 393A

Mesulergine

- mesulergine treatment of Parkinson's disease: an 18-month follow-up (Hoehn), 128A

Metabolite levels, brain

- cerebral physiological and metabolic effects of hyperventilation in the neonatal dog (Young and Yagel), 337

Methionine sulfoximine

- brain methylation and epileptogenesis: the case of methionine sulfoximine (Sellinger et al), S115

N-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine

- glial fibrillary acidic protein and histological studies in primate corpus striatum and substantia nigra after NMPTP treatment (Reyes et al), 129A

- nigrostriatal abnormalities in primates intoxicated with NMPTP (Cork et al), 130A

- NMPTP-elicited parkinsonism: specific receptors explain neurotoxicity (Javitch et al), 130A

1-Methyl-4-phenyl-1,2,5,6-tetrahydropyridine

- intellectual changes in patients with MPTP-induced parkinsonism (Stern and Langston), 130A

Methylation, brain

- brain methylation and epileptogenesis: the case of methionine sulfoximine (Sellinger et al), S115

Metrizamide

- nonconvulsive status epilepticus following metrizamide myelography (Pritchard and O'Neal), 252

Microcephaly

- Alper's disease—a distinct clinicopathological entity (Alcalá and Kotagal), 382A

Migraine

- chronic migraine after minor head trauma (Weiss et al), 113A
- the neurobiology of vascular head pain (Moskowitz), *NEUROLOGICAL PROGRESS*, 157

Mirror movements

- on mirror movements (Blaw), *LETTER*, 367

Mitochondria

- mitochondrial myopathy, encephalopathy, lactic acidosis, and stroke-like episodes: a distinctive clinical syndrome (Pavakis et al), 481

Mitral valve prolapse

- acute *Kingella kingae* endocarditis with recurrent cerebral emboli in a child with mitral prolapse (Lee and Dooling), 88

Motor activity

- motor signs are infrequent in dementia of the Alzheimer type (Koller et al), *NOTE*, 514

Motor neurons

- are motor neuron perikarya altered in toxic axonal neuropathy? (Sterman), 148A

- congenital muscle fiber-type disproportion myopathy: a follow-up study of twenty cases (Glick et al), 405A

- motor nerve terminal sprouting: effects of α -bungarotoxin and anti-acetylcholine receptor antibody (Pestronk and Drachman), 147A

- a new form of sea-blue histiocytosis associated with progressive anterior horn cell and axonal degeneration (Ashwal et al), 184

Motor neuron disease

- clinical and genetic variations in the syndrome of adult GM₂ gangliosidosis resulting from hexosaminidase A deficiency (Argov and Navon), 14

- dementia and motor neuron disease: morphometric, biochemical, and Golgi studies (Horoupian et al), 305
does the human fetal brain influence muscle development? (Sarnat), 381A
nystagmus in motor neuron disease: clinicopathological study of two cases (Kushner et al), 71
- Motor unit activity**
suprasegmentally induced motor unit activity in paralyzed muscles of patients with established spinal cord injury (Dmitrijevic et al), 216
- Multiple sclerosis**
activity of multiple sclerosis during pregnancy and puerperium (Korn-Lubetzki et al), 229
 α -1 antitrypsin phenotypes in Guillain-Barré syndrome, chronic inflammatory demyelinating polyneuropathy, and multiple sclerosis (McCombe et al), 141A
attempted treatment of multiple sclerosis by administration of lymphocytes from a normal identical twin (Goodman et al), 139A
cerebral blood flow and nuclear magnetic resonance studies in chronic multiple sclerosis (Eidelman et al), 141A
cerebrospinal fluid myelin basic protein by ELISA (Myers et al), 142A
clinical versus magnetic resonance imaging: diagnosis of multiple sclerosis (Robertson et al), 140A
evoked potential abnormalities in relatives of patients with multiple sclerosis (Nuwer et al), 141A
false-positive tests for acetylcholine receptor antibodies in patients with multiple sclerosis treated with snake venom (Ashizawa et al), 139A
low T8 antigen density on lymphocytes in active multiple sclerosis (Reder et al), 242
lymphocytic choriomeningitis virus as a possible causative agent for multiple sclerosis (Chou et al), 140A
modest reduction of oligoclonal banding in multiple sclerosis with adrenocorticotrophic hormone and corticosteroids (Baumhufner et al), 142A
multiple sclerosis immune complexes: an analysis of component antigens and antibodies (Coyle and Procyk-Dougherty), 660
pathogenetic factors in electrolyte-induced myelinolysis (Norenberg and Papendick), 140A
quality-specific taste changes in multiple sclerosis (Catalanotto et al), 611
quantitation of intrathecal IgG synthesis in multiple sclerosis: comparison between Tourtellotte's and Schuller's formulas, Link index, and cerebrospinal fluid IgG/albumin ratio (Bocci et al), 143A
studies on complement-mediated demyelination: quantitation of myelin basic protein and myelin lipid turnover in mouse cerebellar explant cultures (Shin et al), 142A
T cell subsets in the border of multiple sclerosis plaques peak exactly on the edge (McCallum et al), 139A
a three-color multiplex labeling analysis of the expression of Leu 1, Leu 2a, and OKT5 antigens on peripheral blood lymphocytes of normal subjects and patients with multiple sclerosis (Kastrukoff et al), 138A
- Multiple sclerosis in twins**
a five-year clinical and immunological follow-up study of twins with multiple sclerosis (Greenstein et al), 140A
- Muscle, skeletal**
tropomyosin heterogeneity in human skeletal muscle (Giometti and Danon), 144A
- Muscle activity**
exercise intolerance, cramps, and sustained muscle activity responsive to carbamazepine (Alonso et al), 143A
- Muscle fibers**
monoclonal antibody analysis of mononuclear cells in myopathies. II: phenotypes of autoinvasive cells in polymyositis and inclusion body myositis (Engel and Arahata), 209
monoclonal antibody analysis of mononuclear cells in myopathies. I: quantitation of subsets according to diagnosis and sites of accumulation and demonstration and counts of muscle fibers invaded by T cells (Arahata and Engel), 193
- Muscle fibers, ragged red**
mitochondrial myopathy, encephalopathy, lactic acidosis, and stroke-like episodes: a distinctive clinical syndrome (Pavakis et al), 481
- Muscle growth**
does the human fetal brain influence muscle development? (Sarnat), 381A
insulin, epidermal growth factor, and fibroblast growth factor: new human muscle growth and maturation factors (Askas et al), 143A
localization of polyamines in developing and regenerating muscle (Kaminska et al), 145A
- Muscle hypotonia**
abnormal neuromuscular transmission in an infantile myasthenic syndrome (Albers et al), 28
- Muscle necrosis**
muscle fiber degeneration and necrosis in muscular dystrophy and other muscle diseases: cytochemical and immunocytochemical data (Cornelio and Dones), 694
- Muscle paralysis**
suprasegmentally induced motor unit activity in paralyzed muscles of patients with established spinal cord injury (Dmitrijevic et al), 216
- Muscular atrophy**
decreased axon caliber and neurofilaments in hereditary motor and sensory neuropathy, type I (Nukada and Dyck), 238
- Muscular dystrophy**
muscle fiber degeneration and necrosis in muscular dystrophy and other muscle diseases: cytochemical and immunocytochemical data (Cornelio and Dones), 694
- Muscular dystrophy, Duchenne**
increased protease activity in Duchenne dystrophic muscles decreases Ca^{2+} ATPase in sarcoplasmic reticulum preparations (Nagy and Samaha), 145A
- Muscular dystrophy, myotonic**
calcium-activated neutral proteases in myotonic muscular dystrophy (Mishra and Chetty), 145A
DNA linkage in myotonic muscular dystrophy (Ross et al), 145A
- Mutations, genetic**
isolating single genes of the inherited epilepsies (Noebels), S18
- Mutism**
postcommissurotomy mutism (Ross et al), 114A
- Myasthenia gravis**
augmented anti-acetylcholine receptor response following long-term penicillamine administration (Bever et al), 9
effect of thymectomy on peripheral blood mononuclear cell T cell subsets in myasthenia gravis (Cox et al), 122A
in vitro synthesis of antibodies to acetylcholine receptor by circulating lymphocytes: role of putative suppressor T cells in myasthenia gravis (Lisak et al), 112A
myasthenia gravis and myasthenic syndromes (Engel), NEUROLOGICAL PROGRESS, 519
suppressor cell immunotherapy of experimental autoimmune myasthenia gravis (McIntosh and Drachman), 113A

- Myasthenia gravis (continued)**
 pyridostigmine interacts with the nicotinic acetylcholine receptor-ionic channel complex (Albuquerque et al), 146A
 thymectomy for myasthenia gravis in people over age 50 (Croft and Patten), 123A
 treatment of bulbar myasthenia gravis by aerosol administration of anticholinesterase (Goulden et al), 405A
- Myasthenic syndrome, infantile**
 abnormal neuromuscular transmission in an infantile myasthenic syndrome (Albers et al), 28
- Myelin formation**
 clinical features of carbamyl phosphate synthetase-I deficiency in an adult (Call et al), 90
- Myelin proteins**
 cerebrospinal fluid myelin basic protein by ELISA (Myers et al), 142A
 contamination of proteolipid protein with basic protein (Trotter and Clark), LETTER, 514
 the role of myelin P₂ protein in the production of experimental allergic neuritis (Rostami et al), 680
 studies on complement-mediated demyelination: quantitation of myelin basic protein and myelin lipid turnover in mouse cerebellar explant cultures (Shin et al), 142A
- Myelin sheath**
 myelin sheath responses to rapid changes in axonal caliber (Griffin et al), 147A
- Myelinolysis**
 pathogenetic factors in electrolyte-induced myelinolysis (Norenberg and Papendick), 140A
- Myelography**
 nonconvulsive status epilepticus following metrizamide myelography (Pritchard and O'Neal), 252
- Myoclonus**
 nocturnal myoclonus—a sleep disturbance in children with leukemia (Kotagal et al), 392A
 restless limb—myoclonus—sleep apnea syndrome (Chokroverty and Sachdeo), 124A
- Myoclonus, branchial**
 isolated branchial myoclonus secondary to paraneoplastic encephalopathy (Wooten and Bennett), 133A
- Myositis**
 monoclonal antibody analysis of mononuclear cells in myopathies. II: phenotypes of autoimmune cells in polymyositis and inclusion body myositis (Engel and Arahata), 209
 monoclonal antibody analysis of mononuclear cells in myopathies. I: quantitation of subsets according to diagnosis and sites of accumulation and demonstration and counts of muscle fibers invaded by T cells (Arahata and Engel), 193
- Myotonia**
 acute myotonia induced by 2,4-dichlorophenoxyacetate is mediated by polyamine synthesis (Koenig et al), 143A
- Naloxone**
 naloxone does not benefit levodopa-induced hallucinations in Parkinson's disease (Sandyk and Gillman), LETTER, 723
 neuropeptides: a role as endogenous mediators or modulators of epileptic phenomena (Bajorek et al), S31
- Narcotics**
 cerebrospinal fluid pharmacokinetics of opiates after intrathecal injection (Payne et al), 125A
- Necrosis, basal ganglia hemorrhagic**
 value of ultrasound for identification of acute hemorrhage necrosis of thalamus and basal ganglia in an asphyxiated term infant (Kreusser et al), 361
- Necrosis, thalamic hemorrhagic**
 value of ultrasound for identification of acute hemorrhage necrosis of thalamus and basal ganglia in an asphyxiated term infant (Kreusser et al), 361
- Neoplasm metastasis**
 brain metastasis of systemic cancer is more frequently visualized with magnetic resonance imaging than with computed tomography (Rogers et al), 132A
 chemotherapy controls systemic but not central nervous system metastases from medulloblastoma (Allen and Walker), 391A
 metastasizing cerebral germinoma (Peña and Smith), LETTER, 94
- Neoplasms, central nervous system**
 a phase 1-2 evaluation of intraarterial diaziquone for malignant tumors of the central nervous system (Greenberg et al), 133A
- Neoplasms, childhood intracranial**
 leptomeningeal dissemination of primary intracranial neoplasms of childhood: incidence and significance (Packer et al), 391A
- Neoplasms, cranial**
 noninvasive evaluation of congenital extracranial masses by waterpath sonography (Fischer et al), 410A
- Neoplasms, cranial posterior fossa**
 NMR imaging: posterior fossa neoplasms in children (Carr et al), 410A
- Neoplasms, nervous tissue, child**
 second primary neoplasms in children with central nervous system tumors (Farwell and Flannery), 403A
- Neoplasms, pain of**
 analgesic efficacy of intrathecal D-Ala²-D-Leu⁵ enkephalin in cancer patients with chronic pain (Moulin et al), 124A
- Nerve fiber degeneration**
 the neuropathology of the Holmes-Adie syndrome (Selhorst et al), 138A
- Nerve fiber diameter**
 electrophysiological estimate of nerve fiber diameter distribution and histograms of nerve fibers in toxic neuropathies (Sax et al), 148A
- Nerve growth factors**
 serum neuronal growth factor levels in von Recklinghausen's neurofibromatosis (Riopelle et al), 54
- Nerve tissue proteins**
 neuropeptides: a role as endogenous mediators or modulators of epileptic phenomena (Bajorek et al), S31
- Neural conduction**
 increase in nerve conduction velocity in diabetic patients after one year of treatment with portable insulin infusion pumps (Ehle and Raskin), 146A
 principles and pitfalls of nerve conduction studies (Kimura), NEUROLOGICAL PROGRESS, 415
 serial nerve conduction studies in juvenile diabetes mellitus (Swick et al), 401A
- Neural crest, cephalic**
 isoretinoin neuroembryopathy: nineteen cases of a new syndrome (Lott and Lammer), 380A
- Neural inhibition**
 mechanisms of epileptogenesis in cortical structures (Prince and Connors), S59
- Neuritis, experimental allergic**
 the role of myelin P₂ protein in the production of experimental allergic neuritis (Rostami et al), 680
- Neuroblastoma, cerebral**
 the biological behavior of primary cerebral neuroblastoma: a reappraisal of the clinical course in a series of 70 cases (Bennett and Rubinstein), 21

- Neuroepidemiology**
neuroepidemiology (Kurtzke), *NEUROLOGICAL PROGRESS*, 265
- Neurofibromatosis, neurological complications**
neurological complications in 250 cases of neurofibromatosis (Rubenstein et al), 133A
- Neurofibromatosis, von Recklinghausen's**
serum neuronal growth factor levels in von Recklinghausen's neurofibromatosis (Riopelle et al), 54
- Neurofilament proteins**
neurofilament breakdown products in degenerating rat and human peripheral nerves (Trojanowski et al), 349
- Neurofilaments**
antibodies against the 200 Kd protein of neurofilaments in sera of normal people (Stefansson et al), 112A
decreased axon caliber and neurofilaments in hereditary motor and sensory neuropathy, type I (Nukada and Dyck), 238
infantile giant axonal neuropathy (Hodson and Ballinger), 407A
- Neuroglia**
ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135
- Neurology, history**
neurology in the age of the Pyramids (c 2500 BC): the Edwin Smith surgical papyrus (Tyler), 134A
Visconte's *Nosographia Delle Malattie Ricevute*: late eighteenth-century concepts of neurological disease (Swick and Antuono), 134A
- Neuromuscular diseases**
biochemical studies on normal and diseased human muscle sarcoplasmic reticulum: increased protease effects in muscle diseases (Nagy and Samaha), 401A
congenital muscle fiber-type disproportion myopathy: a follow-up study of twenty cases (Glick et al), 405A
electroretinography in the evaluation of childhood myotonic dystrophy (Brenningstall et al), 406A
heterogeneity of familial carnitine deficiency (Brand et al), 401A
muscle weakness in infants with vitamin D deficiency rickets (Torres and Forbes), 406A
relevance of the nonspecific esterase reaction in the evaluation of childhood neuromuscular disease (Bodensteiner and Feedback), 406A
- Neuromuscular testing**
quantitated neuromuscular testing in therapeutic trials (Tandan et al), 144A
- Neuronal membrane receptors**
infection of neuronal cell cultures with reovirus mimics in vitro patterns of neurotropism (Dichter and Weiner), 603
- Neurons**
ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135
- Neurons, central nervous system**
limitation of high-frequency repetitive firing of cultured mouse neurons: an in vitro assay of anticonvulsant drug action (McLean and Macdonald), 121A
- Neurons, cortical**
fine structure of cortical tubers in tuberous sclerosis: a Golgi study (Huttenlocher and Heydemann), 595
iron uptake by mammalian cortical neurons (Swaiman and Machen), 66
mechanisms of epileptogenesis in cortical structures (Prince and Connors), S59
- Neuropathy, axonal**
are motor neuron perikarya altered in toxic axonal neuropathy? (Serman), 148A
- Neuropathy, giant axonal**
dithiothreitol and DL-penicillamine decrease perinuclear vimentin filament aggregates in cultured giant axonal neuropathy fibroblasts (Tandan et al), 150A
- Neuropathy, toxic**
electrophysiological estimate of nerve fiber diameter distribution and histograms of nerve fibers in toxic neuropathies (Sax et al), 148A
hexacarbon neuropathy: cell body changes are early, dynamic, and specific (Serman), 343
- Neuroregulators**
aspartylglutamate and N-acetylaspartylglutamate excite pyramidal cells in rat hippocampal slice (Bernstein et al), 117A
GABA-related phenomena, models of nervous system function, and seizures (Roberts), S77
synaptic vesicle loading in cholinergic sympathetic neurons grown in culture (Johnson), 390A
- Neuroregulators, brain**
brain neurotransmitters in progressive supranuclear palsy (Kish et al), 129A
- Neuroregulators, cerebellar**
canine inherited ataxia: neurotransmitter receptors in the cerebellum (Troncoso et al), 135A
- Neuroregulators, excitatory**
pharmacological blockade of excitatory amino acid neurotransmission attenuates the neuropathological damage of ischemia (Simon et al), 112A
- Neurotensin**
neuroleptics alter neurotensin/dopamine interactions: possible contributions to tardive dyskinesia (Uhl), 127A
- Niemann-Pick disease**
Nova Scotian Niemann-Pick disease: report of fourteen new cases and comparison with other variants (Tibbles et al), 413A
- Nitrazepam**
nitrazepam-induced cricopharyngeal incoordination (Wyllie et al), 394A
- Norepinephrine**
reaction of brain noradrenergic neurons to injury: regulation of presynaptic and postsynaptic β -receptors (Levin), 123A
- Nuclear magnetic resonance. See Magnetic resonance imaging**
- Nucleotides, cyclic**
roles of biogenic amines and cyclic nucleotides in seizure mechanisms (Ferrendelli), S98
- Nucleus basalis receptors**
receptors in the nucleus basalis of primates: an in vitro autoradiographic study (Whitehouse et al), 118A
- Nucleus tractus solitarius**
alteration of blood pressure and gastric tone with pharmacological stimulation of the nucleus tractus solitarius (Spencer and Talman), 124A
- Nutrition disorders**
Wernicke's encephalopathy in the nonalcoholic (Harris et al), 114A
- Nystagmus**
Alexander's law: its behavior and origin in the human vestibulo-ocular reflex (Robinson et al), 714
familial cerebellar hypoplasia with upbeating nystagmus (Furman et al), 135A
nystagmus in motor neuron disease: clinicopathological study of two cases (Kushner et al), 71
- Octacosanol**
octacosanol in parkinsonism (Snider), *LETTER*, 723

- Oculocerebrorenal syndrome
ultrastructural, neurological, and glycosaminoglycan abnormalities in Lowe's syndrome (Wisniewski et al), 40
- Oculomotor nerve
midbrain paresis of horizontal gaze (Zackon and Sharpe), 495
- Oligoclonal banding
modest reduction of oligoclonal banding in multiple sclerosis with adrenocorticotrophic hormone and corticosteroids (Baumhefner et al), 142A
- Oligodendrocytes
in vitro culture of isolated human adult oligodendrocytes on extracellular matrix (Lubetzki-Korn et al), 141A
Theiler's virus infection of cultured oligodendrocytes (Graves et al), 151A
- Olivopontocerebellar atrophy
evoked potentials and nuclear magnetic resonance scanning in patients with olivopontocerebellar atrophy (Aisen et al), 137A
- Ophthalmoplegia
descending paralysis resulting from occult wound botulism (Rapoport and Watkins), 359
- Optic discs
transient visual obscurations with elevated optic discs (Saddun et al), 489
- Organelles, axonal
intraaxonal organelle traffic analysis in human nerve (Breuer et al), 149A
- Oxaloacetates
an improved assay for brain pyruvate dehydrogenase activity: stimulation by oxaloacetate (Haas and Thompson), 385A
- Oxygen consumption
inefficient increased oxygen consumption during submaximal exercise in amyotrophic lateral sclerosis (Sanguet et al), 110A
- Papilledema
transient visual obscurations with elevated optic discs (Saddun et al), 489
- Papovaviridae
papovavirus capsomer-like particles from progressive multifocal leukoencephalopathy brain (Tenser et al), 152A
- Paralysis
descending paralysis resulting from occult wound botulism (Rapoport and Watkins), 359
- Paresis, mesencephalic
midbrain paresis of horizontal gaze (Zackon and Sharpe), 495
- Paresthesia
single-digit pain and paresthesia: a symptom of early carpal tunnel syndrome (Fine et al), 150A
- Parkinson's disease
addition of carbidopa in patients with Parkinson's disease (Lieberman et al), 127A
domperidone therapy in patients with Parkinson's disease with levodopa-carbidopa-related gastrointestinal complaints (Paulseth et al), 127A
dopamine receptor alterations in asymmetrical and symmetrical parkinsonism measured by positron emission tomography (Frost et al), 128A
epidemiology of parkinsonism: incidence, classification, and mortality (Rajput et al), 278
intellectual changes in patients with MPTP-induced parkinsonism (Stern and Langston), 130A
mesulergine treatment of Parkinson's disease: an 18-month follow-up (Hoehn), 128A
naloxone does not benefit levodopa-induced hallucinations in Parkinson's disease (Sandyk and Gillman), LETTER, 723
nigrostriatal abnormalities in primates intoxicated with NMPTP (Cork et al), 130A
NMPTP-elicited parkinsonism: specific receptors explain neurotoxicity (Javitch et al), 130A
nucleus basalis of Meynert: severe cell loss in Parkinson's disease without dementia (Pendlebury and Perl), 129A
octacosanol in parkinsonism (Snider), LETTER, 723
peripheral beta-adrenergic blockade treatment of parkinsonian tremor (Foster et al), 505
receptors in substantia nigra in normal humans and persons with Parkinson's disease (Uhl et al), 128A
spinal cord metabolism of the NMPTP-treated monkey (Schwartzman and Alexander), 129A
- Parkinson's disease, familial
familial occurrence of amyotrophic lateral sclerosis, parkinsonism, and dementia (Schmitt et al), 642
- Parkinson's disease cell culture
hypersensitivity to x rays in cultured cells from patients with Parkinson's disease and Alzheimer's disease (Robbins et al), 135A
- Parotid neoplasms
metastasizing cerebral germinoma (Peña and Smith), LETTER, 94
- Penicillamine
augmented anti-acetylcholine receptor response following long-term penicillamine administration (Bever et al), 9
- People's Republic of China
epidemiology of epilepsy and brain injury in the People's Republic of China (Wang et al), 120A
- Peptide growth factor
insulin, epidermal growth factor, and fibroblast growth factor: new human muscle growth and maturation factors (Askanas et al), 143A
- Peptide hydrolases
calcium-activated neutral proteases in myotonic muscular dystrophy (Mishra and Chetty), 145A
increased protease activity in Duchenne dystrophic muscles decreases Ca^{2+} ATPase in sarcoplasmic reticulum preparations (Nagy and Samaha), 145A
- Perfusion, impaired brain
acquired perinatal leukoencephalopathy (Leviton and Gilles), NEUROLOGICAL PROGRESS, 1
- Peripheral nerve diseases
altered endoneurial oxygen tension topography in edematous peripheral nerves (Low et al), 147A
central abnormalities in giant axonal neuropathy demonstrated by multimodality evoked response testing (Majnemer et al), 408A
galactose neuropathy: impact of chronic endoneurial edema on nerve blood flow (Myers and Powell), 587
intraaxonal organelle traffic analysis in human nerve (Breuer et al), 149A
neurofilament breakdown products in degenerating rat and human peripheral nerves (Trojanowski et al), 349
orthostatic hypotension, peripheral neuropathy, and depression: clinical and neurochemical evidence of a defect involving both peripheral and central noradrenergic systems (Rimar et al), 407A
principles and pitfalls of nerve conduction studies (Kikura), NEUROLOGICAL PROGRESS, 415
sciatic endometriosis: a treatable cause of neuropathy (Roos), 149A
Western blot analysis of human peripheral nerve antigens recognized by Guillain-Barré antisera (Kasper), 149A

- Peripheral nerve function**
peripheral nerve function and metabolic control in diabetes mellitus (Troni et al), 178
- Peroxisomes**
adrenoleukodystrophy: survey of 303 cases: biochemistry, diagnosis, and therapy (Moser et al), *NEUROLOGICAL PROGRESS*, 628
- Pharynx**
nitrazepam-induced cricopharyngeal incoordination (Wyllie et al), 394A
- Phenobarbital**
antenatal phenobarbital for prevention of neonatal intraventricular hemorrhage (Shankaran et al), 381A
behavioral, intellectual, and medical outcomes of children with partial onset seizures randomized to phenobarbital or carbamazepine (Mitchell and Chavez), 393A
- Phenylalanine**
experimental hyperphenylalaninemia and reinforcement schedule performance (Rosenberger and Ferraro), 384A
- Phenylketonuria**
dendritic abnormalities of cortical pyramidal cells in rat pups born to hyperphenylalanemic mothers: a new animal model of "maternal phenylketonuria" (Lacey), 384A
hippocampal dendritic abnormalities in a rat model of phenylketonuria (Lacey), 577
- Phenytoin**
clinical and laboratory features of phenytoin hypersensitivity in 18 patients (Olanoff et al), 121A
free phenytoin levels: correlation with drug toxicity (Shanghai et al), 120A
phenytoin interacts with calcium channels in brain membranes (Greenberg et al), 616
- Phenytoin metabolism**
the use of a stable isotope to study phenytoin metabolism in the newborn (Painter et al), 379A
- Phenytoin toxicity**
cerebellar atrophy following phenytoin intoxication (Lindvall and Nilsson), 258
- Phospholipids**
cholesterol and phospholipids in cultured skin fibroblasts from patients with dystonia (Maltese and De Vivo), 250
- Phosphorus metabolism disorders**
the effects of graded hypoxia on cerebral phosphorus metabolites and intracellular pH in newborn lambs (Younkin et al), 383A
- Physostigmine**
effects of physostigmine on local cerebral glucose utilization in the rat (Dietrich et al), 117A
- Pick's disease**
classic and generalized variants of Pick's disease: a clinicopathological, ultrastructural, and immunocytochemical comparative study (Munoz-Garcia and Ludwin), 467
- Polyamines**
acute myotonia induced by 2,4-dichlorophenoxyacetate is mediated by polyamine synthesis (Koenig et al), 143A
localization of polyamines in developing and regenerating muscle (Kaminska et al), 145A
- Polymorphism (genetics)**
looking for epilepsy genes (White), S12
- Polyneuropathy**
total locked-in state resembling brain death in polyneuropathy (Kotsoris et al), 150A
- Polyneuropathy, infantile**
infantile axonal polyneuropathy with X-linked inheritance (Sladky and Brown), 402A
- Polyradiculoneuritis**
correlation of anti-peripheral myelin antibody kinetics with clinical course in Guillain-Barré syndrome (Koski et al), 112A
the swine flu incident revisited (Asbury), *LETTER*, 513
Western blot analysis of human peripheral nerve antigens recognized by Guillain-Barré antisera (Kasper), 149A
- Pons, disorders of**
central pontine myelinolysis in a 6-month-old infant with rapidly corrected hyponatremia (Chercover and Norman), *LETTER*, 261
- Porphyria**
familial calcifications of the brain, iron storage, and porphyria: a new syndrome (Beall et al), 137A
- Positron emission tomography**. See *Tomography, emission computed*
- Potassium, regional**
cerebral blood flow and regional potassium distribution during focal ischemia of gerbil brain (Mies et al), 232
- Pregnancy**
activity of multiple sclerosis during pregnancy and puerperium (Korn-Lubetzki et al), 229
- Progesterone**
effect of progesterone on brain excitability: a developmental study (Holmes), 396A
- Progressive supranuclear palsy**
brain neurotransmitters in progressive supranuclear palsy (Kish et al), 129A
- Prolactin**
hyperprolactinemia: an inherent manifestation of patients with complex partial seizure (Molaie et al), 121A
- Propionic acid**
metabolic studies of carnitine in propionic aciduria (Kuczynski and Hoppel), 383A
- Propranolol**
long-acting propranolol in essential tremor (Koller), 125A
- Pseudotumor cerebri**
pseudotumor cerebri in obstructive uropathy (Noetzel and Rioux), 386A
- Psychometrics**
catecholamines and amnesia: the need for psychometric verification (McEntee and Mair), *LETTER*, 516; reply (Martin et al), *LETTER*, 516
- Puerperium**
activity of multiple sclerosis during pregnancy and puerperium (Korn-Lubetzki et al), 229
- Purkinje cells**
immunological similarities between T lymphocytes and Purkinje cells (Meyer), *LETTER*, 369; reply (Greenlee), *LETTER*, 369
- Pyridostigmine bromide**
descending paralysis resulting from occult wound botulism (Rapoport and Watkins), 359
pyridostigmine interacts with the nicotinic acetylcholine receptor-ionic channel complex (Albuquerque et al), 146A
- Pyridoxine**
unusual case of pyridoxine-responsive seizures (Emery), 395A
- Pyrolidines**
kainate-induced seizures after calcium channel antagonist binding in rat brain (Griesemer and Johnston), 378A
- Pyruvate carboxylase**
pyruvate carboxylase activity is not abnormal in fibroblasts of patients with Friedreich's ataxia (Dijkstra et al), *LETTER*, 262

- Pyruvate dehydrogenase complex**
an improved assay for brain pyruvate dehydrogenase activity: stimulation by oxaloacetate (Haas and Thompson), 385A
- Quadriplegia**
total locked-in state resembling brain death in polyneuropathy (Kotsoris et al), 150A
- Rabies**
human leukocyte interferon administration to patients with symptomatic and suspected rabies (Merigan et al), 82
- Radiation, whole brain**
regional cerebral glucose metabolism in long-term survivors of acute lymphocytic leukemia: a comparison of central nervous system prophylaxis with and without whole-brain radiation therapy (Phillips et al), 402A
- Radiation therapy**
the biological behavior of primary cerebral neuroblastoma: a reappraisal of the clinical course in a series of 70 cases (Bennett and Rubinstein), 21
irradiation of intracranial anterior visual pathway meningiomas (Kupersmith et al), 131A
- Radiculopathy, cervical**
median nerve somatosensory evoked potentials in the diagnosis of cervical radiculopathy and cervical spondylosis (Navia and Rapoport), 150A
- Receptors, adrenergic**
binding of α -1, α -2, and β -adrenergic receptor ligands to human epileptic cerebral cortex (Sherwin et al), 121A
reaction of brain noradrenergic neurons to injury: regulation of presynaptic and postsynaptic β -receptors (Levin), 123A
- Receptors, cholinergic**
augmented anti-acetylcholine receptor response following long-term penicillamine administration (Bever et al), 9
false-positive tests for acetylcholine receptor antibodies in patients with multiple sclerosis treated with snake venom (Ashizawa et al), 139A
in vitro synthesis of antibodies to acetylcholine receptor by circulating lymphocytes: role of putative suppressor T cells in myasthenia gravis (Lisak et al), 112A
motor nerve terminal sprouting: effects of α -bungarotoxin and anti-acetylcholine receptor antibody (Pestronk and Drachman), 147A
synaptic vesicle loading in cholinergic sympathetic neurons grown in culture (Johnson), 390A
- Receptors, dopamine**
dopamine receptor alterations in asymmetrical and symmetrical parkinsonism measured by positron emission tomography (Frost et al), 128A
effects of age and sex on dopamine receptors in the living human brain (Wong et al), 128A
possible involvement of central dopamine receptors in compulsive self-mutilative behavior (Goldstein and Kuga), 123A
- Receptors, substantia nigra**
receptors in substantia nigra in normal humans and persons with Parkinson's disease (Uhl et al), 128A
- Recombination, viral**
infection of neuronal cell cultures with reovirus mimics in vitro patterns of neurotropism (Dichter and Weiner), 603
- Reflex, monosynaptic**
peripheral nerve function and metabolic control in diabetes mellitus (Troni et al), 178
- Regional blood flow**
the circumventricular organs: monoaminergic effects on regional blood flow (Townsend et al), 123A
- Regional blood flow, cerebral**
cerebral blood flow and regional potassium distribution during focal ischemia of gerbil brain (Mies et al), 232
positron emission tomographic measurements of regional cerebral blood flow during auditory stimulation (Siddis et al), 116A
regional cerebral blood flow characteristics of the Sturge-Weber syndrome (Riela et al), 399A
- Renal disorders**
pseudotumor cerebri in obstructive uropathy (Noetzel and Rioux), 386A
- Reovirus**
infection of neuronal cell cultures with reovirus mimics in vitro patterns of neurotropism (Dichter and Weiner), 603
- Repetitive sequences, viral nucleic acid**
detection of viral nucleic acid sequences in human neurological diseases (Tourtellotte et al), 152A
- Respiratory distress syndrome**
the effect of eliminating fluctuating cerebral blood flow velocity in preterm infants with respiratory distress syndrome on the incidence and severity of intraventricular hemorrhage (Perlman et al), 380A
hyperammonemia in birth asphyxia and respiratory distress syndrome (Ehrlich and Cooper), 405A
- Respiratory dysfunction**
respiratory dysrhythmia in Shy-Drager syndrome (Chokroverty and Manocha), 136A
- Restless legs**
restless limb-myoclonus-sleep apnea syndrome (Chokroverty and Sachdeo), 124A
- Reticular formation, mesencephalic**
midbrain paresis of horizontal gaze (Zackon and Sharpe), 495
- Retinal detachment**
congenital hydrocephalus and eye abnormalities with severe developmental brain defects: Warburg's syndrome (Bordarier et al), 60
- Retinoic acid**
isoretinoin neuroembryopathy: nineteen cases of a new syndrome (Lott and Lammer), 380A
- Rett's syndrome**
dystonia and lactic acidosis: new features of Rett's syndrome (Philippart and Brown), 387A
- Reye's syndrome**
cerebral glucose alterations after octanoate infusion (Trice et al), 412A
efficacy of therapeutic agents in experimental Reye's syndrome (Trauner), 411A
influenza B virus model of Reye's syndrome: effect of aspirin (Davis et al), 153A
in vitro evaluation of beta-oxidation in human fibroblasts: implications for Reye's syndrome and other metabolic encephalopathies (Reichmann et al), 412A
- Rickets**
muscle weakness in infants with vitamin D deficiency rickets (Torres and Forbes), 406A
- Rickettsial infections**
acute central nervous system vasculitis with rise in rickett-

- sial antibodies: a previously unrecognized syndrome (Young et al), 151A
- Rubella virus
- multiple sclerosis immune complexes: an analysis of component antigens and antibodies (Coyle and Procyk-Dougherty), 660
- Sarcoma, childhood
- childhood systemic sarcoma metastatic to meninges: a review of seventeen cases (Phillips et al), 391A
- Sarcoplasmic reticulum
- biochemical studies on normal and diseased human muscle sarcoplasmic reticulum: increased protease effects in muscle diseases (Nagy and Samaha), 401A
- Schwann cells
- serum neuronal growth factor levels in von Recklinghausen's neurofibromatosis (Riopelle et al), 54
- Scrapie virus
- antibodies to scrapie prion proteins recognize proteins in murine Creutzfeldt-Jakob disease-infected brain (Bendheim et al), 152A
- Sea-blue histiocytosis syndrome
- a new form of sea-blue histiocytosis associated with progressive anterior horn cell and axonal degeneration (Ashwal et al), 184
- Seizures
- Alper's disease—a distinct clinicopathological entity (Alcalá and Kotagal), 382A
- GABA-related phenomena, models of nervous system function, and seizures (Roberts), S77
- ionic and acid-base regulation of neurons and glia during seizures (Woodbury et al), S135
- neurological involvement in the hemolytic-uremic syndrome (Sheth et al), 400A
- preferential involvement of the central nervous system in biotinidase deficiency (Diamantopoulos et al), 385A
- role of the γ -aminobutyric acid receptor-ionophore complex in seizure disorders (Olsen et al), S90
- roles of biogenic amines and cyclic nucleotides in seizure mechanisms (Ferrendelli), S98
- substantia nigra and seizures: age-dependent differential effects (Okada et al), 379A
- Seizures, afebrile, child
- recurrence after a first unprovoked afebrile seizure in childhood (Camfield et al), 379A
- Seizures, child
- behavioral, intellectual, and medical outcomes of children with partial onset seizures randomized to phenobarbital or carbamazepine (Mitchell and Chavez), 393A
- carbamazepine in children: clinical and laboratory adverse effects (Pellock et al), 392A
- carbamazepine-induced seizures (Johnsen et al), 392A
- nephrolithiasis complicating the ketogenic diet in seizure disorders (Davis and Levinsohn), 395A
- seizures in childhood bacterial meningitis (Snyder), 395A
- unusual case of pyridoxine-responsive seizures (Emery), 395A
- Seizures, complex partial
- hyperprolactinemia: an inherent manifestation of patients with complex partial seizure (Molaie et al), 121A
- Seizures, experimental
- kainate-induced seizures after calcium channel antagonist binding in rat brain (Griesemer and Johnston), 378A
- Seizures, focal
- more intense focal seizure types after callosal section: the role of inhibition (Spencer et al), 686
- Seizures, infant
- characterization of seizures in neonates and young infants by time-synchronized electroencephalographic/polygraphic/video monitoring (Mizrahi and Kellaway), 383A
- Seizures, motor
- the use of imipramine as an anticonvulsant for minor motor seizures (Hurst), 394A
- Seizures, neonatal
- effect of hypoxic-ischemic encephalopathy on subsequent development of seizures in the developing brain (Holmes and Weber), 396A
- ³¹P nuclear magnetic resonance study of cerebral high-energy phosphate metabolism during prolonged seizures in neonatal dogs (Young et al), 377A
- outcome in neonates with apneic seizures (Dumas et al), LETTER, 622
- study of neonatal seizures (Ellison), LETTER, 366; reply (Bergman et al), LETTER, 366
- Self mutilation
- possible involvement of central dopamine receptors in compulsive self-mutilative behavior (Goldstein and Kuga), 123A
- Senile dementia of Alzheimer type
- brain electrical activity in patients with presenile and senile dementia of the Alzheimer type (Duffy et al), 439
- motor signs are infrequent in dementia of the Alzheimer type (Koller et al), NOTE, 514
- Senile plaques
- historical perspective on our concepts of the senile plaque (Casanova et al), 134A
- senile plaques in Alzheimer's disease: new approaches for their detection (Casanova et al), 119A
- Shy-Drager syndrome
- respiratory dysrhythmia in Shy-Drager syndrome (Chokroverty and Manocha), 136A
- Sjögren's syndrome
- neonatal lupus involving the central nervous system (Wallace et al), 399A
- Sleep apnea syndromes
- restless limb-myoelonus-sleep apnea syndrome (Chokroverty and Sachdeo), 124A
- Snake venoms
- false-positive tests for acetylcholine receptor antibodies in patients with multiple sclerosis treated with snake venom (Ashizawa et al), 139A
- Somatostatin
- somatostatin-like immunoreactive neurites in senile plaques in primates (Struble et al), 120A
- Somatotropin release inhibiting hormone
- somatostatin receptors in monkey and human brain (Beal et al), 117A
- Sonography, waterpath
- noninvasive evaluation of congenital extracranial masses by waterpath sonography (Fischer et al), 410A
- Spasms, infantile
- positron emission tomography with ¹⁸F-2-fluorodeoxyglucose in infantile spasms (Chugani et al), 376A
- Sphingosine
- the role of psychosine (glucosylsphingosine) in Gaucher's disease (Kaye et al), 384A
- Spinal cord
- chemically activated channels in muscle and spinal cord (Jackson), S52

- Spinal cord commissures
on mirror movements (Blaw), LETTER, 367
- Spinal cord cultures
insulin: growth factor for rat ventral spinal cord cultures (Moriwaka et al), 148A
- Spinal cord disorders
NMR scanning for evaluation of the tethered spinal cord (Walsh et al), 409A
- Spinal cord injury
changes in dynorphin and enkephalin immunoreactivity in the spinal cord following experimental spinal injury (Faden et al), 124A
suprasegmentally induced motor unit activity in paralyzed muscles of patients with established spinal cord injury (Dmitrijevic et al), 216
- Spinal cord metabolism
spinal cord metabolism of the NMPTP-treated monkey (Schwartzman and Alexander), 129A
- Spinal cord neoplasms
cervical spinal cord intramedullary tumor: demonstration by nuclear magnetic resonance imaging (Kilroy et al), 409A
- Spinocerebellar degeneration
galactosylceramide lipidosis: novel presentation as a slowly progressive spinocerebellar degeneration (Thomas et al), 618
- Startle reaction
startle disease, or hyperekplexia (Andermann and Andermann), LETTER, 367; reply (Masdeu and Sáenz-Lope), LETTER, 368
- Status epilepticus
in vivo phosphorus nuclear magnetic resonance spectroscopy in status epilepticus (Petroff et al), 169
lorazepam treatment of childhood status epilepticus (Gilmore et al), 377A
nonconvulsive status epilepticus following metrizamide myelography (Pritchard and O'Neal), 252
- Strabismus
alternating ipsilateral hypertropia on lateral gaze in patients with lower brainstem disorders (Moster et al), 115A
- Streptozotocin
mechanisms of diabetic resistance to ischemic conduction block (Low et al), 146A
- Sturge-Weber syndrome
regional cerebral blood flow characteristics of the Sturge-Weber syndrome (Riela et al), 399A
- Subacute necrotizing encephalomyelopathy
variability of serial CT scans in Leigh disease (Koch et al), 410A
- Subarachnoid hemorrhage, aneurysmal
determinants of clinical outcome after aneurysmal subarachnoid hemorrhage (Brott and Mandybur), 156A
- Substance P
the neurobiology of vascular head pain (Moskowitz), NEUROLOGICAL PROGRESS, 157
- Substantia innominata
nucleus basalis of Meynert: severe cell loss in Parkinson's disease without dementia (Pendlebury and Perl), 129A
- Substantia nigra
glial fibrillary acidic protein and histological studies in primate corpus striatum and substantia nigra after NMPTP treatment (Reyes et al), 129A
substantia nigra and seizures: age-dependent differential effects (Okada et al), 379A
- Sudden infant death
cerebral cortical function in infants at risk for sudden infant death syndrome (Clancy and Spitzer), 396A
- Suppressor cells
loss of suppressor T cells and recurrent encephalomyelitis associated with incontinentia pigmenti (Brunquell), 389A
low T8 antigen density on lymphocytes in active multiple sclerosis (Reder et al), 242
- Swine influenza virus
the swine flu incident revisited (Asbury), LETTER, 513
- Synaptic membranes
the synaptic nature of the paroxysmal depolarizing shift in hippocampal neurons (Johnston and Brown), S65
- Taste threshold
quality-specific taste changes in multiple sclerosis (Catalanotto et al), 611
- Teratogens
neuropathological findings in an animal model of the hydantoin syndrome (Trice and Finnell), 396A
- Thiamine deficiency
the induction and reversibility of cerebral acidosis in thiamine deficiency (Hakim), 673
- Theiler's virus
Theiler's virus infection of cultured oligodendrocytes (Graves et al), 151A
- Thromboembolism
neurological sequelae of cardiac catheterization (Weissman et al), 398A
- Thymectomy
effect of thymectomy on peripheral blood mononuclear cell T cell subsets in myasthenia gravis (Cox et al), 122A
thymectomy for myasthenia gravis in people over age 50 (Croft and Patten), 123A
- Thyrotropin-releasing hormone
double-blind crossover trials with acute intravenous thyrotropin-releasing hormone infusion in patients with amyotrophic lateral sclerosis: negative studies (Mitsumoto et al), 109A
placebo controlled computerized dynametric measurements of bulbar and somatic muscle strength increase in patients with amyotrophic lateral sclerosis following intravenous infusion of 10 mg/kg thyrotropin-releasing hormone (Gracco et al), 110A
placebo controlled quantitative measurements of neuromuscular function following intravenous infusion of 10 mg/kg thyrotropin-releasing hormone in 16 male patients with amyotrophic lateral sclerosis (Sufit et al), 110A
subcutaneous thyrotropin-releasing hormone seems ready for wider trials in treating lower motor neuron-produced weakness and spasticity (Engel et al), 109A
trials of thyrotropin-releasing hormone treatment of patients with amyotrophic lateral sclerosis (Saida et al), 109A
- T lymphocytes
effect of thymectomy on peripheral blood mononuclear cell T cell subsets in myasthenia gravis (Cox et al), 122A
immunological similarities between T lymphocytes and Purkinje cells (Meyer), LETTER, 369; reply (Greenlee), LETTER, 369
monoclonal antibody analysis of mononuclear cells in myopathies. II: phenotypes of autoinvasive cells in polymyositis and inclusion body myositis (Engel and Arahata), 209
monoclonal antibody analysis of mononuclear cells in myopathies. I: quantitation of subsets according to diagnosis and sites of accumulation and demonstration and

- counts of muscle fibers invaded by T cells (Arahata and Engel), 193

- Transplantation
- metachromatic leukodystrophy: partial treatment through bone marrow transplantation (Philippart et al), 399A
- Tremor
- observations on sensory ataxia (Campbell), 151A
- Tremor, essential
- amantadine in essential tremor (Koller), LETTER; reply (Manyam), LETTER, 621
 - long-acting propranolol in essential tremor (Koller), 125A
- Tremor, intention
- successful treatment of two cases of intention tremor with clonazepam (Trelles et al), NOTE, 621
- Tremor, parkinsonian
- peripheral beta-adrenergic blockade treatment of parkinsonian tremor (Foster et al), 505
- Trigeminal nerve
- the neurobiology of vascular head pain (Moskowitz), NEUROLOGICAL PROGRESS, 157
- Tropomyosin
- tropomyosin heterogeneity in human skeletal muscle (Giometti and Danon), 144A
- Tuberous sclerosis
- fine structure of cortical tubers in tuberous sclerosis: a Golgi study (Huttenlocher and Heydemann), 595
- Ultrasonics
- the anatomy and geometry of anterior cerebral artery blood flow determinations (Tarby et al), 405A
 - continuous-wave Doppler: normal values, reliability, and validity for nine single and seven combination measures (Ellison et al), 404A
 - value of ultrasound for identification of acute hemorrhage necrosis of thalamus and basal ganglia in an asphyxiated term infant (Kreusser et al), 361
- Valproate
- effect of valproic acid on ammonia and organic acid metabolism (Hardison et al), 378A
 - valproylcarnitine: a novel metabolite of valproic acid (Bohan et al), 394A
- Vascular headache
- calcium antagonists are effective in prophylactic treatment of all types of vascular headache (Meyer et al), 113A
 - the neurobiology of vascular head pain (Moskowitz), NEUROLOGICAL PROGRESS, 157
- Vascular resistance, cortical
- effect of vasodilating drugs on intracortical and extracortical vascular resistance following middle cerebral artery occlusion in cats (Date and Hossmann), 330
- Vasculitis, central nervous system
- acute central nervous system vasculitis with rise in rickettsial antibodies: a previously unrecognized syndrome (Young et al), 151A

Vasodilator agents

effect of vasodilating drugs on intracortical and extracortical vascular resistance following middle cerebral artery occlusion in cats (Date and Hossmann), 330

Vestibular nerve

Alexander's law: its behavior and origin in the human vestibulo-ocular reflex (Robinson et al), 714

changes in the human vestibulo-ocular reflex after loss of peripheral sensitivity (Baloh et al), 222

Vestibulo-ocular reflex

changes in the human vestibulo-ocular reflex after loss of peripheral sensitivity (Baloh et al), 222

Vincristine

chiasmatic/hypothalamic/thalamic gliomas in childhood: efficacy of treatment with chemotherapy alone (Packer et al), 402A

results of randomized chemotherapy trials for newly diagnosed medulloblastoma, malignant astrocytoma, and brainstem glioma from the children's cancer study group (Allen et al), 403A

Vision disorders

vitamin E deficiency associated with vision loss and bulbar weakness (Larsen et al), 387A

Visual cortex

morphometric studies of neurons in the visual cortex of Down's syndrome brains (Wisniewski et al), 390A

reduced glucose utilization in the appropriate primary visual cortex with homonymous field defects (Wayner et al), 116A

Visual obscurations

transient visual obscurations with elevated optic discs (Sadun et al), 489

Visual pathways

irradiation of intracranial anterior visual pathway meningiomas (Kupersmith et al), 131A

Vitamin E

vitamin E deficiency associated with vision loss and bulbar weakness (Larsen et al), 387A

Warburg's syndrome

congenital hydrocephalus and eye abnormalities with severe developmental brain defects: Warburg's syndrome (Bordarier et al), 60

Warfarin metabolism

effect of carbamazepine on Coumadin metabolism (Gibney), LETTER, 622; reply (Massey), LETTER, 623

Wernicke's encephalopathy

computed tomography in the diagnosis of Wernicke's encephalopathy: a radiological-neurological correlation (Mensing et al), 363

Wernicke's encephalopathy in the nonalcoholic (Harris et al), 114A

Wounds and injuries, head

assessment of head trauma by computed tomography and nuclear magnetic resonance (Gandy et al), 114A

chronic migraine after minor head trauma (Weiss et al), 113A

cranial nuclear magnetic resonance imaging in head trauma (Gandy et al), 254
